All Applicants

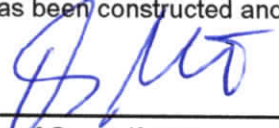

All applications must be accompanied by private sector evaluations and designs unless a petition for VDH services is approved.

Is a *Petition for Services* attached? Yes No

Is the property intended to serve as your (the owners') principal place of residence? Yes No

In order for VDH to process your application for a sewage system, you must attach a plat of the property and a site sketch. For water supplies, a plat of the property is recommended and a site sketch is required. The site sketch should show your property lines, actual and/or proposed buildings, and the desired location of your well and/or sewage system. When the site evaluation is conducted, the property lines, building location and the proposed well and sewage sites must be clearly marked and the property sufficiently visible to see the topography.

I give permission to the Virginia Department of Health to enter onto the property described during normal business hours for the purpose of processing this application and to perform quality assurance checks of evaluations and designs certified by a private sector Onsite Soil Evaluator or Professional Engineer as necessary until the sewage disposal system and/or private water supply has been constructed and approved.
