 The Daniel

Greenville, SC Downtown Developments

The Cultural Corridor

The Cultural Corridor is the section of College/Buncombe Street between Main Street and Heritage Green. Owned by SCDOT, this four-lane urban collector street carries an estimated average daily traffic of 13,400 vehicles per day.

College Street's significant growth is changing the way Greenville's downtown is functioning. Currently, it behaves like a highway, without adequate accommodations for pedestrian safety and urban uses, to create a successful environment for an expanding downtown. Both the Downtown Master Plan and Traffic Master Plan recommend improving pedestrian access and connectivity from the Heritage Green campus, with its unique collections of museums, theater and library, to the downtown core by adapting the out-of-date "through-street" design of College/Buncombe Street into an urban street that can

accommodate vehicular traffic while providing multi-modal connectivity, safety and access. Partnering with HDR engineering firm, the updates to this corridor will include:

- Provide/enhance pedestrian and bicycle mobility between Main St. & Heritage Green
- Landscaping, multi-use paths, and street/pedestrian lighting
- Street resurfacing and traffic signal upgrades
- Encourage drivers to utilize Academy Street as a "downtown bypass"
- Revitalize economic growth along the corridor
