Osage Mills is currently under construction as of 1-26-23. This project will add 8% population to Bessemer City when completed end of 2024.

Remarkable opportunity to invest or develop in downtown Bessemer City that is part of one of the fastest growing counties in the area. This property is minutes away from Caromont Hospital, new Fuse district, new Two Kings Casino and hiking at Crowders Mountain. Also planned in Bessemer City is Osage Mills project which will feature plans for creating 139 one, two and three bedroom apartments inside the 245,000 square foot building. Our two parcels are within a two minute walk to Osage Mills and downtown Bessemer City which features restaurants and retail along a sidewalk already in place on parcels. Road frontage is 275 feet along East Virginia Avenue. Don't miss this opportunity as these parcels are shovel ready with environmental studies and surveys finished. This is a highly visible and high traffic location! Parcel # 121417 is included in total acreage. Medical complex being built adjacent to property.

Dirt is shoveled during a ground breaking ceremony held on the grounds of Osage Mill in Bessemer City Thursday afternoon, Jan. 26, 2023.

OSAGE MILL

Osage Mill is a 250,000 square foot mill located on the main street in Bessemer City, NC. It is being repurposed into a mix of affordable housing, market rate housing and commercial space. The first phase will include 143 affordable units for families. This is a historic tax credit restoration and will be completed as per the National Park Service standards.

In the early 1900's when the manufacturing company was reorganized due to bankruptcy, the name was changed to Osage. This property was established in 1895 as the Southern Cotton Mill. This original building and the collection of additions have been vacant for several decades. The repurposing into housing will bring the facility back to life. Allowing it to once again become a contributing member to the Bessemer City downtown environment.

supplies.

2.3.C URBAN RESIDENTIAL (UR)

The Urban Residential (UR) district is established in which the principal use of land is for single-family, two-family, townhouse, and low or medium density multi-family residences. The regulations of this district are intended to provide areas in the community for those persons desiring small residences and multi-family structures in higher density neighborhoods. The regulations are intended to prohibit any use which, because of its character, would interfere with the residential nature of this district. This district also promotes contextual commercial and retail development, encouraging walkable corner stores and markets, local services, and pocket parks. It is expected that municipal water and sewerage facilities will be available to each lot in such districts. Residential developments greater than three (3) acres in size will be considered and will utilize the Conditional Zoning District provided in Section 2.5.

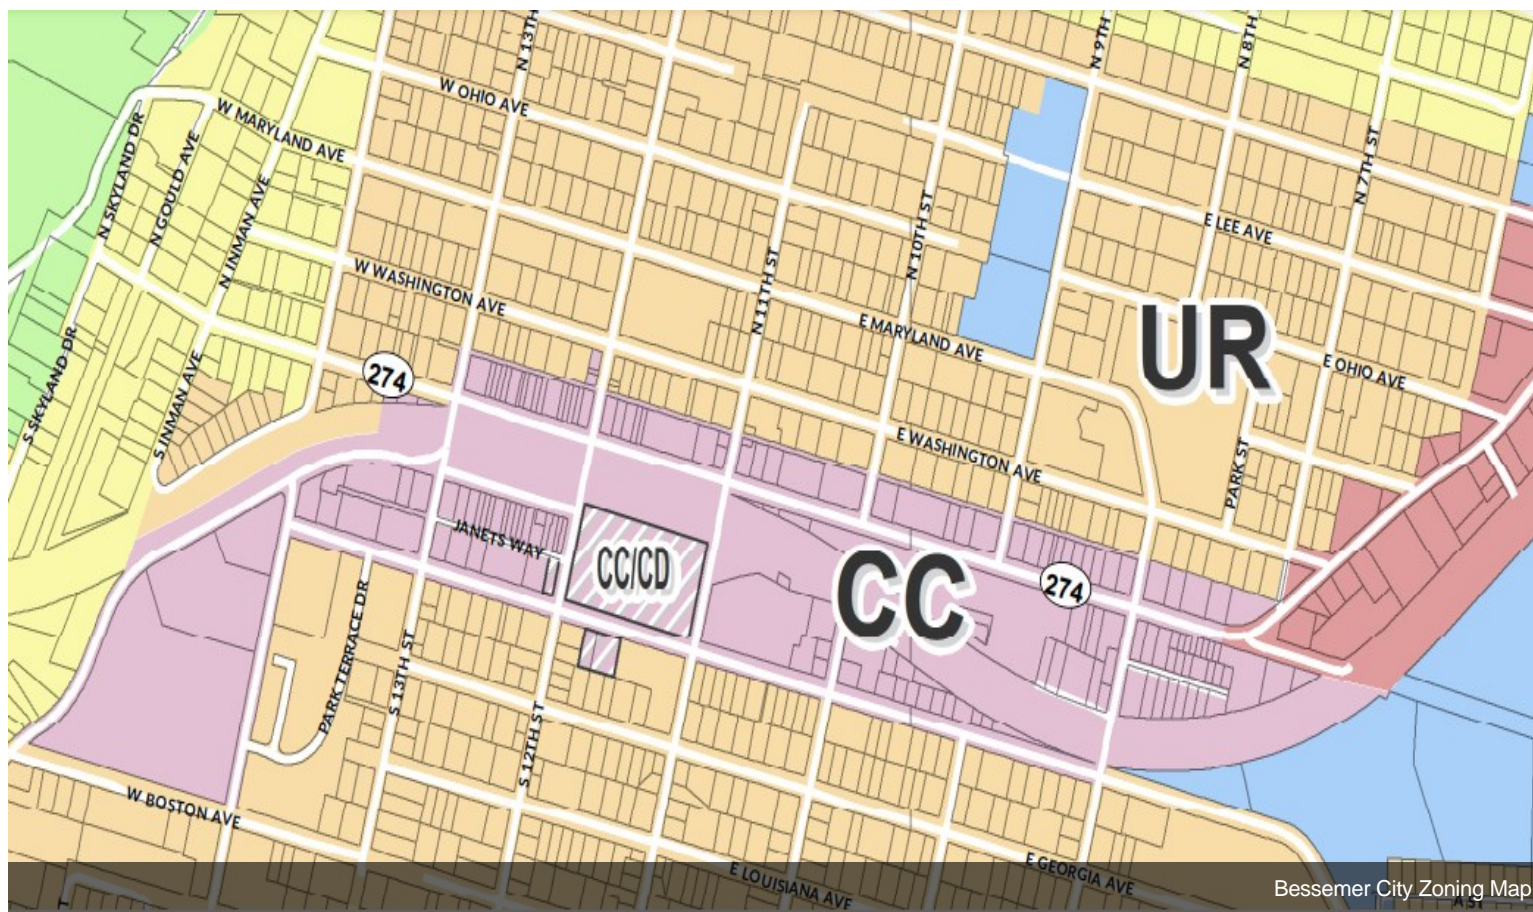

2.3.D CITY CENTER (CC)

The City Center (CC) district is established to provide for a mixture of commercial, residential, and civic/institutional uses in the City's downtown core. It is intended to be the historic, cultural, and civic hub for the community. Development emphasizes walkable, pedestrian-scaled buildings with residential uses primarily being supplied above commercial storefronts or offices.

2.3.E HIGHWAY COMMERCIAL (HC)

The Highway Commercial (HC) district is established along major thoroughfares and collector streets in the planning area. They are intended to provide for offices, personal services, and the retailing of durable and convenience goods for the community. Because these commercial uses are subject to public view and are important to the economy of the area, they should have ample parking, controlled traffic movement and suitable landscaping. Uses along these corridors shall be interconnected to mitigate traffic congestion and reduce driveway connections.
