- LISTING DESCRIPTION -

Offering an unbeatable oceanfront location, Las Rocas Resort & Spa has been a landmark in the Rosarito Beach corridor. Its name brings to mind the ocean, relaxation, great food, and to a select few, a romantic experience. The place where the Baja getaway dream comes to life and where the sunsets are just the beginning.

Now, offered for the first time to the cultured investor, Las Rocas Resort & Spa enters the Baja California commercial real estate landscape representing a unique opportunity to own one of the most iconic Hotel landmarks in Northern Baja.

THE LOCATION

Las Rocas Resort & Spa is located on top of a cliff overlooking the Pacific Ocean. A privileged location that harbors an array of local landmarks, natural beauty, and impressive panoramic ocean views.

Perhaps the most noticeable landmark in south Rosarito is the 75-foot tall Christ of the Sacred Heart, a statue that closely emulates the Christ The Redeemer in Rio de Janeiro, Brazil, and its arms spread wide while Las Rocas sits directly at its feet.

On the southern end, you will find a natural rock formation on the seashore made of two bedrock columns that once supported an arch, also a famous local landmark, and from where Las Rocas draws its name.

On the northern end, there is a 'Mirador' that overlooks a beautiful cove where a seasonal sandy beach lies undisturbed. A place where you can enjoy a nice sunset walk by its shore, or ride a few waves with significantly less traffic.

With 935 feet of oceanfront line, Las Rocas' infrastructure, manicured gardens, and natural formations take advantage of this privileged area by strategically finding a balance between comfort, leisure, style, and unforgettable scenery.

HISTORY

Built in 1989, Las Rocas has since become a landmark destination in Rosarito. Hosting numerous events and expos looking for the perfect oceanfront setting, Las Rocas has evolved and adapted to a growing market of ocean view enthusiasts, expanding its infrastructure and rethinking its oceanfront space to accommodate this select trend.

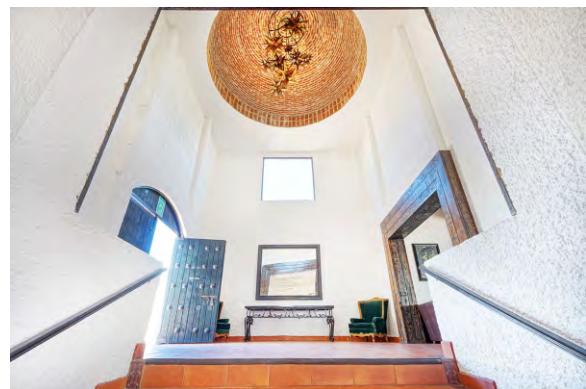

Designed by late Architect José Orozco, an award-winning Mexican Hotel Architect and Designer, known for its works in Los Cabos, La Paz, and its signature white Knockdown Dash Finish Stucco style, Saltillo tile flooring, Open-Framed Terraces, where the ocean view is accented by an outdoor stucco-styled frame, and Mexican blue Talavera tile, Las Rocas shines bright against a the Baja-blue ocean backdrop.

Catering to a growing demand for pairing an oceanfront retreat with a wellness experience, The Spa at Las Rocas was built in 1997. Its array of holistic treatments and full-service salon not only became a guest's favorite, especially among those attending wedding events but also scored a big hit with the local market.

In 2005, Las Rocas success as a preferred oceanfront wedding venue, expanded both its venue options and its wedding season beyond the popular spring through summer, with a stunning ocean-view indoor ballroom with a capacity for 300+ persons. It is fully equipped with a lounge bar, hardwood floors, and an impressive ocean-view outdoor terrace.

In 2015, the first phase of its ocean-view Luxury Suites accommodations was finished.
