SANTA BARBARA COTTAGE HOSPITAL & OAK PARK NEIGHBORHOOD

Santa Barbara Cottage Hospital (SBCH) is a 510-bed, acute-care teaching hospital and level II trauma center, the largest of its kind between Los Angeles and the San Francisco Bay Area. The hospital was founded in 1888 by 50 women determined to provide a healthcare facility for the growing community of Santa Barbara. With annual admissions of 18,204 patients, 44,397 emergency department visits and 2,216 births, the hospital is renowned for its comprehensive maternal-child and pediatric services (Cottage Children's Hospital), cardiac, neurosurgical and oncology programs, emergency and trauma services, modern operating rooms, sophisticated diagnostic radiology equipment, outpatient surgery, eye center, psychiatric and chemical dependency services and inpatient and outpatient rehabilitation services (Cottage Rehabilitation Hospital).

The Cottage Hospital Modernization and Seismic Compliance Project was approved by the Santa Barbara City Council 12 years ago. The massive multi-phase, \$700 million construction project brings the total square footage of the new Hospital to 712,550 SF. The project has completed Phase 6, which consists of a nursing pavilion and a diagnostic and treatment pavilion.

The Oak Park area of Mission Creek has been a popular picnic and recreation spot in Santa Barbara and is one of the most visited parks in the city.
