LOCATION INFORMATION

PITTSBURGH

The city of **Pittsburgh** has a population of 2.4 million, which is the 22nd largest metro area in the US, making it the 2nd largest city in Pennsylvania. It is viewed as an industrial giant in the production of steel, iron, aluminum and glass. The city has completed a major renaissance to become the country's "Most Livable City" (Places Rated Almanac), now considered as one of the largest and most attractive cities to live and do business in. There have been many Fortune 1000 companies that have been the focus of Pittsburgh; it has been the nation's center for nuclear engineering and has a balanced and varied economy that centers itself on technology, world-renowned healthcare and top universities. There has been a re-occurrence of some of the city's major industrial corporations (such as US Steel, Westinghouse and Consol) as well as growth of many small and mid-sized companies.

Downtown Pittsburgh, colloquially referred to as the Golden Triangle of Dahn-tahn in eye dialect, and officially the **Central Business District** is the urban downtown center of Pittsburgh. It is located at the confluence of the Allegheny River and the Monongahela River whose joining forms the Ohio River. The "triangle" is bounded by the two rivers. The area features offices for major corporations such as PNC Bank, U.S. Steel, PPG, Bank of New York Mellon, Heinz, Federated Investors and Alcoa. It is where the fortunes of such industrial barons as Andrew Carnegie, Henry Clay Frick, Henry J. Heinz, Andrew Mellon and George Westinghouse were made. It contains the site where the French fort, Fort Duquesne, once stood.

PITTSBURGH AT A GLANCE

One of the top places to live, work, and visit in the United States

Pittsburgh is one of the nation's busiest inland ports

There are 29 colleges and universities in southwestern PA

More than 10 million people visit the Pittsburgh region annually
