Reconciliation

Disclaimer: This represents an estimated sale price for this property. It is not the same as the opinion of value in an appraisal developed by a licensed appraiser under the Uniform Standards of Professional Appraisal Practice. Modum Technologies, LLC maintains a comprehensive database of sales and listings for the subject area. Additional subject and market data has been abstracted from public records and/or provided by the Client. Modum graciously acknowledges the use of aerial and street level photos and maps from third-party sources including Google Maps, CoStar Comps/LoopNet, Enriched Data, various City and County websites, FEMA and others.

About Modum Valuation

This Broker Price Opinion was prepared by Modum Valuation. Modum provides commercial real estate agents and brokers, lenders, institutional investors, portfolio owners, attorneys, accountants and the allied private and public sector Commercial Real Estate (CRE) community with a trusted and credible real property price estimate product. Our network of CRE professionals uses proprietary software connected to multiple national and local databases of continuously updated ownership and transaction records for tens of millions of commercial properties. Our professional valuation experts have years of real-world experience performing appraisals and price estimates in the commercial real property sector to drive high quality with a rapid turnaround time at a reasonable price. Headquartered in Florida, Modum performs price estimates nationally on most property types, including vacant land.

About Modum Technologies, LLC

Modum Technologies is a real estate technology firm that provides appraisers with sophisticated valuation software and fully USPAP and/or IAEG-compliant appraisal templates. Modum's copyrighted templates allow commercial real estate professionals direct autofill capability via Modum APIs to multiple national and local databases of continuously updated ownership and transaction records for tens of millions of commercial properties. Our professional programmers have created highly advanced efficiencies augmented by artificial intelligence for the real property sector with a high quality, client-appropriate templated product at a reasonable price. This is not an Automated Valuation Model product, but rather a tool that allows the appraisal expert's valuation opinions and other real estate professional's price or consulting estimates to be the center of focus. Valuation experts can generate work product at a much higher rate, easily outbid the competition while increasing margins, and may no longer have to turn away assignments.

Limiting Conditions & General Assumptions

THIS WORK PRODUCT IS NOT AN APPRAISAL AND HAS NOT BEEN PERFORMED IN ACCORDANCE WITH THE UNIFORM STANDARDS OF PROFESSIONAL APPRAISAL PRACTICE (USPAP) NOR IS IT INTENDED TO COMPLY WITH THE FEDERAL INTERAGENCY APPRAISAL AND EVALUATION GUIDELINES (IAEG). Rather, this price estimate report presents only brief discussions or summations of the data, reasoning, or analyses that were used to estimate the potential market price of the property. Except as specifically indicated and typically considered as a part of the real property, furnishings, equipment, other personal property, or business operations have been disregarded with only the real property being considered. Except when explicitly stated, this work product was not prepared by a state-licensed real estate broker or agent nor by a state-licensed real property appraiser, but rather by one or more individuals with knowledge of real property valuation methods and access to public and private demographics and transaction data.

- Acceptance of Terms and Conditions: This work product and its use are subject to the terms, limiting conditions and assumptions stated below (collectively "Terms and Conditions").
 Use of or reliance on the report by any party, regardless of whether such use or reliance is known by the preparer of the report, a licensee or their company Modum Valuation ("Company"), or Modum Technologies, LLC, constitutes acceptance of the Terms and Conditions. References to Modum Technologies, LLC in the Terms and Conditions below mean and include Company, Modum Technologies, LLC and its affiliated business entities, and their members, partners, shareholders, officers, directors, employees and contractors.
- Use of the Work Product: This report has been provided solely for the Client's internal use. The report shall not be used or relied on by any third-party and shall not be used or relied on for any other intended use. Under no circumstances shall the work product be solely used or relied on by any borrower, or any buyer or seller of the property. It shall not serve as the primary basis for any property purchase or sale relating to the property, yet is intended only to assist the Client for internal decision making. Neither the preparer of the work product nor Modum Technologies, LLC shall be responsible to parties other than the Client or for any use of the work product other than the described intended use. Client is solely responsible for determining whether its use of the work product, rather than an appraisal report within the meaning of USPAP, is an appropriate collateral valuation method for the subject transaction considering associated risks and is permissible for Client's use under applicable laws, regulations or directives. This work product is understood generally, and is provided, as a less intensive analysis than an appraisal performed under USPAP by a licensed or certified appraiser. Neither all nor part of this report may be disseminated to a third-party, distributed publicly or published in any media or used in any sales or lease offerings.
- Scope of Inspection: Information about the property's physical condition, key property characteristics and neighborhood/market area were obtained by the preparer of the work product as defined within the report and as directed by the Client. If an inspection was performed as indicated within this report, the preparer's inspection of the property was not the equivalent of a professional land, home or building inspection by a professional, licensed building inspector and should not be relied on for such purposes. It was performed only for consideration in the report. Any sketches, maps, and photographs in the report are included to assist the reader in visualizing the property and are not necessarily to scale, and are typically sourced through public records. If the interior of an improved real property was not inspected as per Client request, the interior condition is assumed to be similar to the exterior.
- No Responsibility for Certain Conditions and Assumptions: Notwithstanding that the work product may comment on, consider or assume certain conditions about the property, neither the preparer of the work product nor Modum Technologies, LLC shall have any responsibility for investigating or have any liability for matters pertaining to: (a) title defects, liens or encumbrances affecting the property; (b) the property's compliance with local, state or federal zoning, planning, building, disability access and environmental laws, FEMA flood zone designation, regulations and standards; (c) site plans, building permits and planning approvals for improvements on the property; (d) structural or mechanical soundness or safety; (e) contamination, environmental problems, mold, pollution, storage tanks, soil problems, biological contamination, animal or insect infestations and other hazardous or hidden conditions affecting the property; (f) encroachments, easements or property line issues, and (g) any other conditions and matters for which persons performing real estate price estimates are not customarily deemed to have professional expertise. The determination of such matters was not part of the scope of this work product and it is assumed, unless otherwise stated in the report, that the property is not impaired or affected by any such factors. Such factors, if discovered, however, could affect the price estimate. This report is solely for the exclusive use of the Client; (h) the data included within the report was obtained from third-party sources, as referenced, and is assumed to be correct and reliable; (i) property inspections, photographs, support documentation and opinions relied upon from third party providers, inspectors and brokers is assumed to be correct and reliable; (j) any and all data provided by the Client is assumed to be correct and reliable; We reserve the right, at a later time, to reconsider our price estimate based upon additional or alternate data provided by the Client, for an additional fee. Modum
- Maximum Time Period for Legal Actions: Unless the time period is shorter under applicable law, any legal action or claim against the preparer of the report or Modum Technologies, LLC relating to the work product shall be filed within one (1) year from the date of delivery of the report or, in the case of acts or conduct after delivery of the report, one (1) year from the date of the alleged acts or conduct. The time period stated in this section shall not be extended by any delay in the discovery or accrual of the underlying claims, causes of action or damages. The time period stated in this section shall apply to all non-criminal claims or causes of action of any type, except for intentional fraud or intentionally wrongful conduct.
- Subpoenas and Testimony: In the event that the preparer of this work product or Modum Technologies, LLC is compelled by subpoena or other legal or administrative process to provide testimony or produce documents relating to the work product, whether in court, deposition, arbitration or any other proceeding, the party seeking such testimony or documents agrees to compensate such person or Modum Technologies, LLC, as applicable, for the reasonable time incurred in connection with preparation for and provision of such testimony and/or documents at such party's hourly rates in effect at that time and reimburse reasonable actual expenses.
- Additional Terms: There are no third-party beneficiaries of this report or of any agreement or contract pertaining to the services rendered with this work product. Any liability of the preparer of this report, Modum Technologies, LLC or the Client to each other or to any third party for claims or causes of action in relation to this report, other than criminal, intentionally fraudulent or intentionally wrongful conduct, shall be limited to the compensation actually paid for the report. In any event, neither the preparer, Modum Technologies, LLC or Client shall under any circumstances be liable to each other or any other party for special, exemplary, punitive or consequential damages, including, without limitation, loss of profits or damages proximately caused by loss of use of any property, whether arising from a party's negligence, breach of an agreement or otherwise, whether or not a party was advised, or knew, of the possibility of such damages, or such possibility was foreseeable. The parties to this work product have an Errors & Omissions policy.
