PROPERTY OVERVIEW

The Laramie site features a ±220 acre parcel located off of Highway 287 just south of Laramie Wyoming. This property is strategically positioned and offers a rare opportunity for industrial/rail users. This site is a mix of Industrial and Rural Residential zoning and is located outside of city limits in Albany County.

The City of Laramie is located in Southeast Wyoming with easy access to major transportation routes including the Union Pacific mainline and Interstate 80. Offering a diverse economy, Wyoming is a business friendly environment offering tax advantages and connectivity with local and state government.

The standout feature of this property is that it is adjacent to Union Pacific Railroad's mainline. The proximity to rail and major east/west Interstate freight routes ensures seamless transportation of goods, providing a logistical efficiency and a competitive advantage.

Union Pacific will evaluate any rail opportunities

WHY WYOMING?

Tax Breaks/Economic Incentives

In Wyoming they take different approach to encouraging business growth. Rather than have multiple taxes which are then mitigated only for some qualifying businesses they keep the cost of doing business low by keeping the tax burden as low as possible for all businesses, both new and existing.

For example, Colorado has a “Job Growth Incentive Tax Credit” which provides a state income tax credit to qualifying businesses. Wyoming does not have a similar tax credit because there is no state income tax. Looked at another way, all businesses in Wyoming receive such a tax credit when compared to other states. [The Tax Foundation](#) again ranked Wyoming #1 for the 2022 State Business Tax Climate Index.

Tax advantages of doing business in Wyoming are:

- No state corporate or individual income tax
- No inventory tax
- No sales tax on manufacturing equipment
- No sales tax on electricity and gas used in the manufacturing process
- No state or local gross receipts tax
- Low sales tax (4% state + 2% county)

source: wyomingbusiness.org

Wyoming has ranked **#1** for overall tax climate, corporate tax structure and individual income tax structure since 2013.

- Tax Foundation's State Business Climate Index

Wyoming ranks **#5** out of 50 states and the District of Columbia for educational opportunities and performance.

- Quality Counts, Report Card 2020/21

Offered at \$20,000 per acre or \$4,400,000

Union Pacific will evaluate
any rail opportunities
