The Square Commercial Center is the office complex located in the Heart of Hanover's Central Business District, and we currently have a rare opportunity for a bank to open a branch in the most central high profile location in Hanover.

The center of Hanover is the only place where all three major routes in Hanover come together, and Center Square is equally convenient from every direction.

This bank location is 3,600 square feet and is ideal for commercial banking business as well as non-commercial customers.
