Section 2.103 Agricultural (A-1) District.

The public health and welfare of Superior Charter Township, Washtenaw County, the State of Michigan, and the United States are greatly dependent upon the sustenance and economic benefits provided by a viable agricultural industry. The Agricultural (A-1) District is hereby established as a Rural District to preserve lands that are suitable for long-term agricultural uses and to protect agricultural enterprises from encroachment by suburban and urban uses and developments. In addition, this district is intended to:

1. Preserve woodlands and wetlands associated with farms which because of their natural physical features, are useful as water retention, surface water purification and groundwater recharge areas, and as habitat for plant and animal life; and which have important aesthetic and scenic value that contributes to the unique character of the agricultural district;
2. Provide the basis for land tax assessments that reflect its existing agricultural nature and, owing to these regulations, its limited use for other purposes;
3. Prevent the conversion of agricultural land to non-farm development which, when unregulated, unnecessarily increases the cost of public services to all citizens and results in the premature disinvestment in agriculture;
4. Protect farmland from speculative increases in land prices;
5. Prevent loss of farmland;
6. Prevent conflicts between agricultural activities and residences;
7. Prevent encroachment of urban and suburban services into agricultural areas;
8. Encourage long-term investment in improvements needed to maintain and expand agricultural production by creating a stable environment for such production;
9. Reduce the amount of land consumed in rural areas for nonagricultural use;
10. Prevent intrusion into farm areas of uses which are incompatible with general farming activities; and
11. Permit services and uses which are necessary to support farming activities.

Residential subdivisions are incompatible with the intent of this district. Extension of public water and sanitary sewer service into this district shall be prohibited unless such service is necessary to address public health and safety issues of development existing at the date of adoption of this Ordinance.
