# The Exchange At Old Town Depot

# The Exchange At Old Town Depot

## Why This Project & Why Rock Hill?

- Rock Hill is experiencing an explosive level of growth
- Rock Hill is a phenomenal place to live, work and play
- City leaders have done an admirable job encouraging the right kind of growth

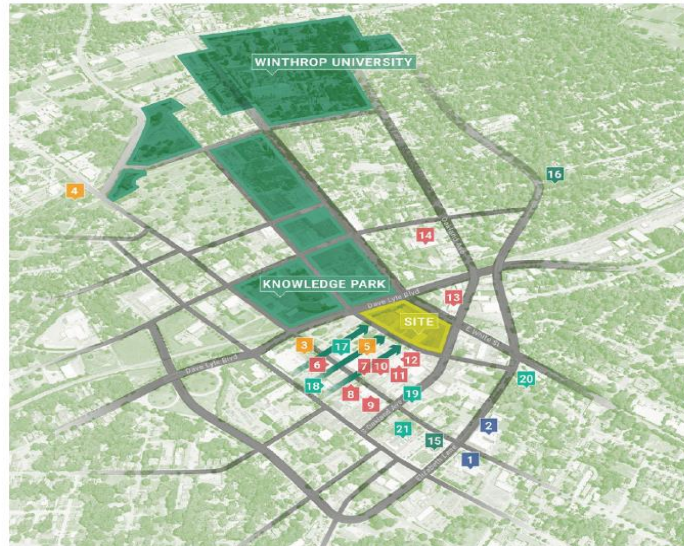

Our team feels as though the time is Now to further catalyze growth in this currently under-developed block of Old Town. We are honored for the opportunity to lead this great project.

Knowledge Park and Old Town has become an attractive environment for businesses and residents alike. The Exchange at Old Town Depot ("The Exchange") seeks to further Rock Hill's goals and ambitions by providing another critical piece to the expansive puzzle that is transforming Old Town and the region.

Charlotte-based Catalyst Capital Partners will serve as a master developer for The Exchange development project. The Team brings a tremendous track record of local business success and community relationships with significant regional experience in large, multi-phase, urban infill, mixed-use projects. The Development Team is excited about the opportunity to partner with the City of Rock Hill, the community, and other stakeholders to deliver a vibrant, mixed-use destination that Old Town can enjoy and be proud of for generations to come. The development will include a market with a deli, restaurants, entertainment that will likely include a brewery, a YMCA or similar fitness facility, unique public art and open space, improved pedestrian connectivity, co-working office space, and mixed-income affordable residential options.

*"Knowledge Park will be a success if it features retail and restaurant offerings, arts and culture, a diversity of housing types, memorable public spaces and other amenities that make it a place where talented people choose to live, work and play."*
