Art Deco Entrance & Monument Sign

Rooftop Deck — Event Ready

Flexible Interior — Gallery / Studio

This landmark Sugar House property is one of the coolest commercial buildings in Salt Lake City — a one-of-a-kind Art Deco / Streamline Moderne landmark with character that can't be replicated in new construction — and it's now available **for lease**. With 20,000+ vehicles passing daily and a prominent electronic monument sign, tenants get some of the highest traffic exposure available anywhere in the city at this rate — few spaces on the market offer this much visibility per dollar.

Beautifully preserved and full of original detail — porthole windows, curved lines, and a genuinely distinctive façade — this property stands as one of Utah's most architecturally unique commercial assets. Put your business inside a true landmark: unmistakable curb appeal, built-in brand identity, and signage presence that ordinary office space simply can't match.

Three flexible lease options ranging from 600 to 2,585 SF. The building features four separate entrances and three versatile floors, so tenants can lease a single suite, a full floor, or the entire building — with lease rates between **\$25 and \$30 per square foot**. The 350-square-foot rooftop deck with panoramic views and built-in stage adds a rare lifestyle and marketing amenity, perfect for client functions, private events, brand activations, or boutique rooftop gatherings.

The layout and visibility make the space exceptionally well-suited for salon or spa concepts, medical or wellness offices, boutique professional suites, gallery or creative space, and multi-unit office configurations. The property also remains available for purchase at \$967,000 — inquire for details.
