In-place NOI \$64,488

Tenant profile

Our History

In 1999, our founders established Storage on the Spot (SOTS), Inc., to address the emerging needs of their clientele. SOTS provides 16-gauge corrugated steel storage containers for construction, commercial, residential, and industrial settings. These lockable storage containers have helped save millions of dollars in losses due to theft and worksite vandalism. Additionally, SOTS offers stackable container modifications, such as twenty and forty-foot office/break-rooms, complete with insulation, HVAC systems, electrical outlets, overhead lighting, and other portable products.
