### 18.07.020 Interpretation of land use tables.

The land use tables in this chapter determine whether a specific use is allowed in a zone district. The zone district is located on the vertical column and the specific use is located on the horizontal rows of these tables.

- A. If the letter "X" appears in the box at the intersection of the column and the row, the use is not allowed in that district, except for certain temporary uses.
- B. If the letter "P" appears in the box at the intersection of the column and the row, the use is allowed in that district subject to review procedures in accordance with CMC Chapter 18.55 "Administration and Procedures."
- C. If the letter "C" appears in the box at the intersection of the column and the row, the use is allowed subject to the conditional use review procedures specified in Chapter 18.43 "Conditional Use Permits," and the general requirements of the Camas Municipal Code.
- D. If the letter "T" appears in the box at the intersection of the row, the use is temporarily permitted under the procedures of Chapter 18.47 "Temporary Use Permits." Other temporary uses not listed may be authorized as provided in Chapter 18.47.
- E. If a number appears in a box at the intersection of the column and the row, the use is subject to the requirements specified in the note corresponding with the number immediately following the table.
- F. Uses accessory to a use permitted or conditionally permitted in any zone may be authorized subject only to those criteria and/or processes deemed applicable by the head of the planning department.
- G. If a use is not listed under either Section 18.07.030 Table 1 or 18.07.040 Table 2, and is not an accessory or temporary use, then the use shall be subject to a zoning code text amendment. Notwithstanding a zoning code text amendment, the community development director may determine whether a proposed land use not specifically listed in a land use table is allowed in a zone. The director shall take into consideration the following when making a determination:
  - 1. Whether or not the proposed use in a particular zone is similar impact to other permitted or conditional uses or is compatible with other uses; and
  - 2. Whether or not the proposed use is consistent with the zone's purpose.

A use listed in one table but not the other shall be considered a prohibited use in the latter.
