Property Description

At 7777 Washington Ave S., nestled on a captivating three-acre expanse, lies The District Edina building, gracing the end of a serene, wooded drive and conveniently accessible via Hwy 169 and Hwy 494. Adding to its allure, Nine-mile creek flows past a main level shared patio amenity to the exceptional, updated 3-story mid-century building displaying its modern architecture. The District offers beautiful showrooms, as well as expansive common spaces. As the building stands tall, its two-sided 100-square-foot digital signage catches the attention of the approximately 180,000 vehicles traversing Highways 169 and 494, not to mention the additional 8,000 cars traveling along Washington Ave.
