#### Value Add / Upside Potential

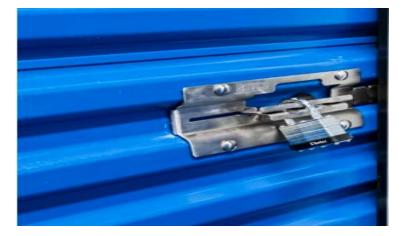

Cornerstone Storage offers an attractive value-add opportunity in the NW corner (outside fence line) through the potential installation of a revenue-generating billboard on-site. The property's location and visibility make it a prime candidate for outdoor advertising, which can provide a steady, passive income stream with minimal operational oversight. The current ownership has already taken proactive steps by initiating conversations with a reputable communications company to gauge interest and feasibility.

By capitalizing on these expansion avenues, a new owner can unlock substantial upside through increased occupancy, improved rental diversity, and higher overall revenue, positioning the facility for long-term growth and increased asset value. Property expands beyond south gate for additional

opportunity.

An immediate value-add opportunity exists through the implementation of a **tenant protection program** using providers like **6Storage**. By offering tenant protection plans, a new owner can generate an additional revenue stream with minimal overhead while providing customers peace of mind for their stored belongings.
