Parec Plaza

Parec Plaza houses 41,600 square feet of prime office space in central Blue Bell. This modern office building is just minutes from both the Plymouth meeting, and Fort Washington interchanges of the PA turnpike, and Rt. 476. The bright, and open design of Parec Plaza features a three story entryway, opening up to a large skylight, which illuminates the interior lobbies year round. A total renovation of the common areas and bathrooms was completed in 2018, leaving the building with a stylish, contemporary design. Situated on the highly visible Route 73, Parec Plaza provides ample on site parking, and easy access to nearby amenities such as restaurants, banks, and professional services.
