PROCESSING
FACILITY :

The subject property consists of a 92,320 square foot facility situated in the heart of California's Central Valley agricultural region. The improvements include approximately 23,330 square feet of dedicated cold storage space, with a total storage capacity of approximately 6,500 pallets. The facility is designed to support processing, storage, and distribution operations, making it well-suited for almond processing or other food-grade uses requiring cold chain logistics. In addition, the property includes functional office and conference spaces capable of seating 50+ people, supporting administrative operations, management, and grower or customer meeting space.

SOLAR :

A 586.04 kW solar system is installed across the majority of building rooftops, providing significant on-site power generation and enhanced operational efficiency.

SOIL:

See 'Soil Map' and 'Soil Description' for details.

LEGAL:

Stanislaus County APN:019-018-041

GROUNDWATER
DISCLOSURE :

Sustainable Groundwater Management Act (SGMA) requires groundwater basins to be sustainable by 2040. SGMA may limit ground water pumping. For more information, please visit the SGMA website at <https://water.ca.gov/programs/groundwater-management/sgma-groundwater-management>.

The Buyer is responsible for conducting their own research to verify all information related to groundwater and surface water resources, including availability, usage rights, and potential restrictions.

REMARKS:

Note: The sale of this property does not include any processing equipment or pallets.
