NOTES
 Local street alignments are conceptual and presented for illustrative purposes. Final local street alignments will be determined through the subdivision process.
 Riparian corridors are based on preliminary Riparian Area Protection Regulation (RAP) assessments. Detailed riparian buffers for creeks and environmentally sensitive areas will be determined during the rezoning, subdivision and development permit stages.
 Major Street Network alignments in East and West Neighbourhoods reflect the findings in the SCPA Master Infrastructure Strategy (July 2020). Final alignments will be confirmed through future Neighbourhood Plans.

LOCATION

With its dramatic hillside setting overlooking the Fraser River, the Central Neighbourhood Plan (CNP) represents the first completed Neighbourhood Plan within Silverdale’s designated urban growth area. The Plan reflects the development of a more complete and walkable urban, mixed-use hillside neighbourhood.
