OFFERING SUMMARY

1005 - 1051 DELAWARE AVENUE

INVESTMENT OVERVIEW

Located in the heart of Marysville, this property consists of 4.47 acres and 24,320 square feet across three main buildings. The site benefits from excellent accessibility via Delaware Avenue, immediately adjacent to McDonald's, with additional frontage along East 5th Street. The primary building at 1051 Delaware Avenue is currently vacant and immediately available for occupancy, while several additional spaces are leased to long-standing businesses under short-term lease structures, creating both current income and future leasing flexibility.

Suitable for investors or users, the property consists of industrial, storage and automotive spaces with significant outdoor storage. There are over 14 drive-in doors facing the parking areas with additional drive-in doors facing the narrow edges of the property boundary. The 1051 building has 480-volt, three-phase power and at least one former loading dock could potentially be restored.

Zoned for commercial, retail and numerous other business and residential uses, this property offers many paths for investment. The 1005 building is currently in poor condition, presenting an opportunity for restoration, demolition, or redevelopment depending on an investor's long-term strategy. The 1051 building, with offices in shell condition, recently received a new roof and features pull-through 14-foot doors. Existing easement access provides convenient ingress and egress, while future improvements such as enhanced access from East 5th Street or additional paving may further increase the property's utility and long-term value.
