AFFLUENT ESTATES TAPESTRY TIERS

Top Tier
AFFLUENT ESTATES

47.3 \$173,200

Average HH Size Median Age Median HH Income

The residents of the wealthiest Tapestry market, Top Tier, earn more than three times the US household income. They have the purchasing power to indulge any choice, but what do their hearts' desire? Aside from the obvious expense for the upkeep of their lavish homes, consumers select upscale salons, spas, and fitness centers for their personal well-being and shop at high-end retailers for their personal effects. Whether short or long, domestic or foreign, their frequent vacations spare no expense. Residents fill their weekends and evening with opera, classical music concerts, charity dinners, and shopping. These highly educated professionals have reached their corporate career goals. With an accumulated average net worth of over 3 million dollars and income from a strong investment portfolio, many of these older residents have moved into consulting roles or operate their own business.

b Professional Pride AFFLUENT ESTATES

3.13 40.8 \$138,100

Average HH Size Median Age Median HH Income

Professional Pride consumers are well-educated career professionals that have prospered through the Great Recession. To maintain their upscale suburban lifestyles, these goal oriented couples work, often commuting far and working long hours. However, their schedules are finetuned to meet the needs of their school age children. They are financially savy; they invest wisely and benefit from the interest and dividend income. So far, these established families have accumulated an average of 1.6 million dollars in net worth, and their annual household income runs at more than twice the US level. They take pride in their newer homes and spend valuable time and energy upgrading. Their homes are furnished with the latest in home trends, including finished basements equipped with home gyms and in-home theaters.

Boomburbs
AFFLUENT ESTATES

3.25 34.0 \$113,400

Average HH Size Median Age Median HH Income

This is the new growth market, with a profile similar to the original: young professionals with families that have opted to trade up to the newest housing in the suburbs. The original Boomburbs neighborhoods began growing in the 1990s and continued through the peak of the housing boom. Most of those neighborhoods are fully developed now. This is an affluent market but with a higher proportion of mortgages. Rapid growth still distinguishes the Boomburbs neighborhoods, although the boom is more subdued now than it was 10 years ago. So is the housing market. Residents are well-educated professionals with a running start on prosperity.

4 FAMILY LANDSCAPES TAPESTRY TIERS

Workday Drive 2.97 37.0 \$90,500 FAMILY LANDSCAPES Average HH Size Median Age Median HH Income

Workday Drive is an affluent, family-oriented market with a country flavor. Residents are partial to new housing away from the bustle of the city but close enough to commute to professional job centers. Life in the suburban wilderness offsets the hectic pace of two working parents with growing children. They favor time-saving devices, like banking online or housekeeping services, and family-oriented pursuits.

b Home Improvement 2.88 37.7 \$72,100 FAMILY LANDSCAPES Average HH Size Median Age Median HH Income

Married-couple families occupy well over half of these suburban households. Most Home Improvement residences are single-family homes that are owner occupied, with only one-fifth of the households occupied by renters. Education and diversity levels are similar to the US as a whole. These families spend a lot of time on the go and therefore tend to eat out regularly. When at home, weekends are consumed with home improvement and remodeling projects.
