Property Overview & Specifications

1260 Red Fox Road is a specialized life science and advanced manufacturing facility with a strong mix of **cleanroom, laboratory, engineering, and controlled production environments**. The building supports companies that require stable utility infrastructure, precise environmental controls, and efficient production flow. Recent upgrades, including **modernized office space** and a **new parking lot** completed in 2023, enhance overall functionality.

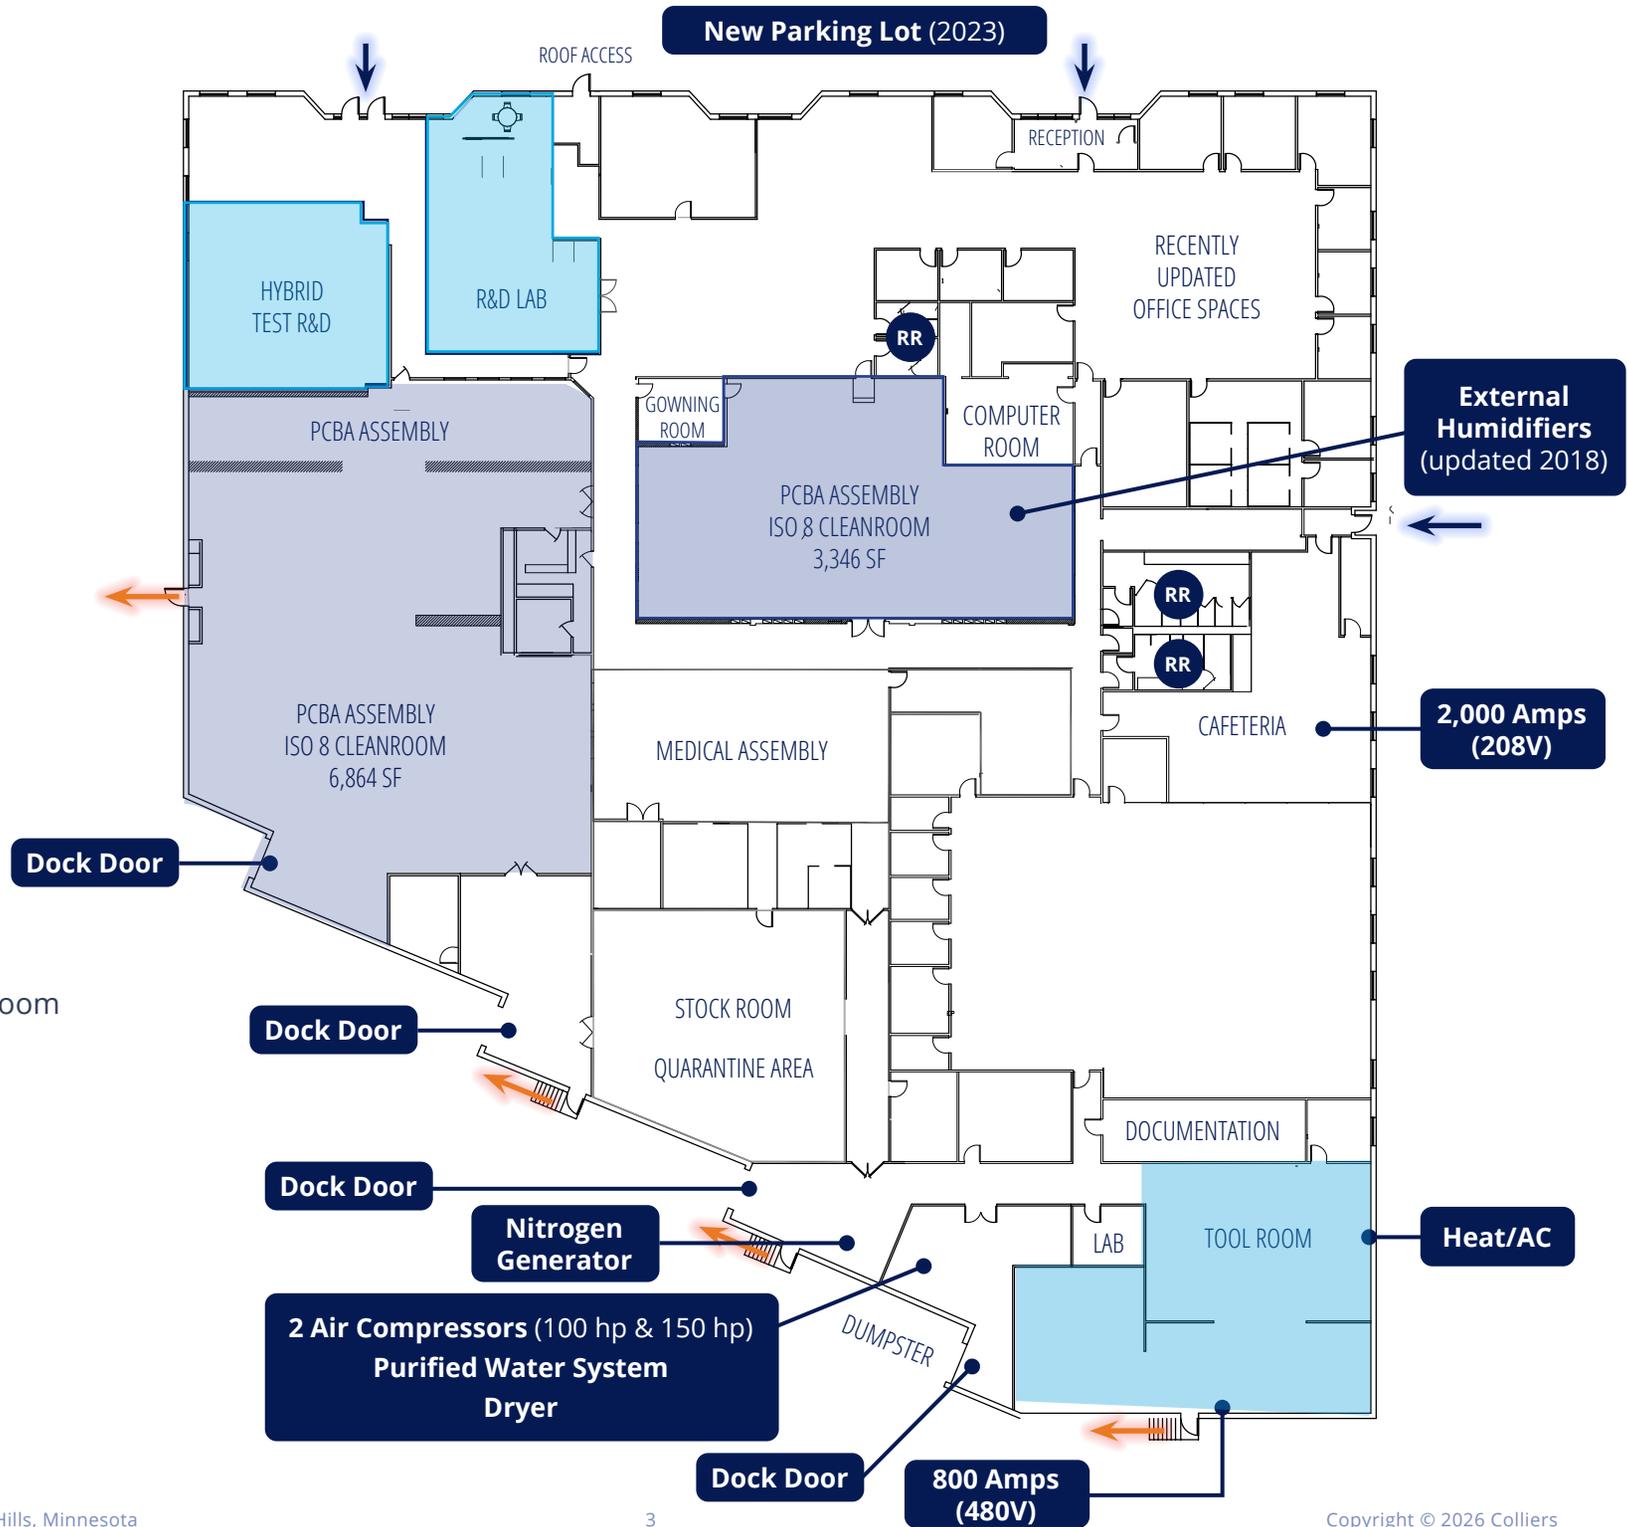

The facility includes **two large ISO 8 cleanrooms** with full temperature and humidity control, a DI water system, a nitrogen generation system, and both 208V and 480V electrical service. Conditioned loading areas with **four dock positions** improve material handling while maintaining product integrity, and **two compressors** support manufacturing and lab requirements. The configuration of office, lab, and production areas creates a **flexible and operationally efficient environment for life science, medical device, and high tech users**.
