## LOCATION & ZONING OVERVIEW

### ZONING DESCRIPTION

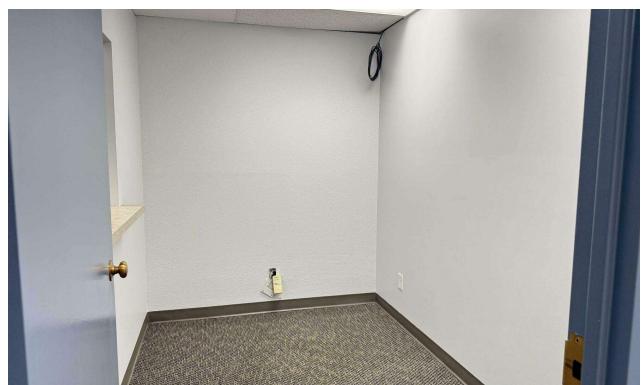

The property is zoned Central Business District (CBD) and is defined in the City of Richland Municipal Code Chapter 23.22.010 as:

The central business district (CBD) is a special mixed use zoning classification designed to encourage the transformation of the central business district from principally a strip commercial auto-oriented neighborhood to a more compact development pattern. The central business district is envisioned to become a center for housing, employment, shopping, recreation, professional service and culture. The uses and development pattern will be integrated and complementary to create a lively and self-supporting district. Medium rise buildings will be anchored by pedestrian oriented storefronts on the ground floor with other uses including housing on upper floors. Projects will be well designed and include quality building materials. Appropriate private development will be encouraged via public investments in the streetscape and through reduction in off-street parking standards. Uses shall generally be conducted completely within an enclosed building, except that outdoor seating for cafes, restaurants, and similar uses and outdoor product display is encouraged. Buildings shall be oriented to the fronting street or accessway, to promote a sense of enclosure and continuity along the street or accessway. This zoning classification is intended for those portions of the city that are designated as central business district, as well as some properties designated as commercial and waterfront, under the Richland comprehensive plan. The central business district zone contains overlay districts titled medical, parkway, and uptown. The overlay districts implement varying site development requirements.
