PROPERTY HIGHLIGHTS

This property is located in North Shore at the NEC of Avenue 70 and Arthur Road. This is not your typical land sale. This is an approximately 38.16 acres parcel in an area that is going to be completely transformed within the next two years. So, the days of vast acreage of agricultural land permeating this area are coming to an end, and it is all due to a purchase made in 2007 by the local school district.

The subject property is adjacent to an elementary school for 500 students including classrooms, and athletic fields. Per the County of Riverside Planning Department, the school district will be bringing in robust access to utilities which will serve the schools and surrounding area. This parcel will be a direct beneficiary of this significant improvement due to its location. (Exception is sewer. At this time, any new development will require septic systems.)

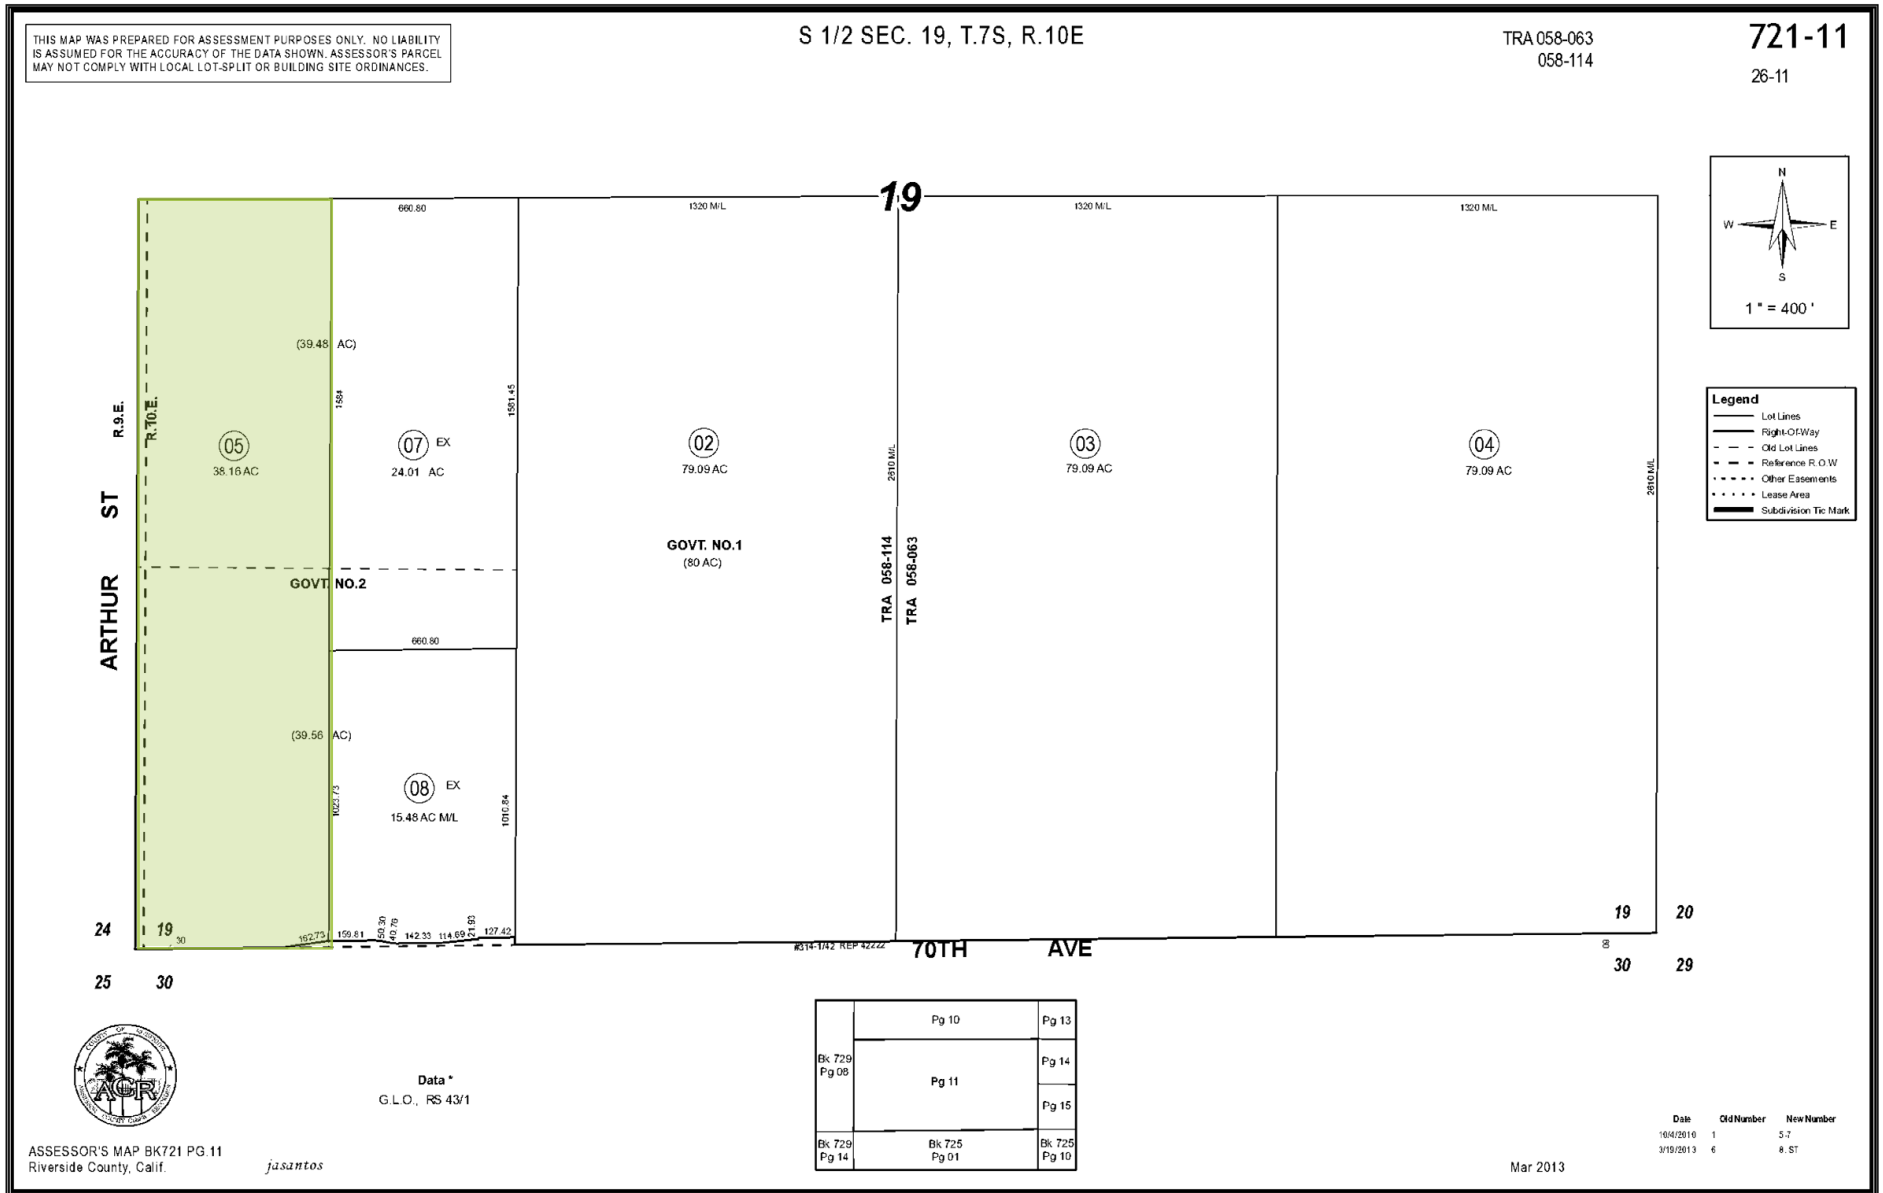

Presently, the parcel is surrounded by a former fish farm, and a ColGreen Solar Farm that leases a significant acreage in the area. The parcel is also close to the Salton Sea which has secured funding in the amounts of \$250M from the federal government, and \$583M from the State of California to deliver projects that protect the surrounding communities and the environment. The Salton Sea also has three companies that are developing chemical processes to extract lithium in a much cleaner way, taking advantage of the Salton Sea’s rich geothermal resources. Near the lake, there are already 11 operating geothermal power plants, 10 of which are owned by Berkshire Hathaway’s renewable energy division, BHE Renewables. So, the parcel is near future demand that may require housing, and related commercial services.

The parcel is zoned W-2. Although single-family homes are the most appealing use with this zoning in the short-term, the long-term potential of the property could also be commercial services: retail, restaurants, and general office services which would require a zoning change for part or all of the parcel. Again, this would be a long-term view of the property in delivering its maximum potential in light of the Coachella Valley Unified School District campus and the large investment in the Salton Sea.

Buyer can utilize a Seller’s Note to purchase the parcel.

RIVERSIDE COUNTY

Riverside County has available land for building construction that is generally not available in the neighboring coastal communities and urban metropolis. The entry point for purchasing land is typically 50-65% lower in our region than in the Los Angeles/South Bay area!

Riverside County is located in Inland Southern California to the east of Orange County, north of San Diego and Imperial counties, and south of San Bernardino and Los Angeles Counties. It is the fourth largest county in California, and is home to diverse geographic features including deserts, forests and mountains, as well as rich biological resources.

There are 28 incorporated cities within Riverside County, large areas of unincorporated land and several Native American tribal entities. Over 86% of the county is unincorporated land.

Riverside County offers businesses the unique combination of location within a marketplace of 22 million + Southern California customers, easy access to main east/west and north/south transportation routes, trained large and diverse workforce, a reasonable cost of living and business-friendly environment, a global perspective, and the lowest net cost of doing business in Southern California.

NORTH SHORE, CA

Situated near I-10 and a short drive from Coachella, North Shore boasts excellent accessibility. This prime location allows for easy transportation of materials and future residents, keeping operational costs low and opening doors for development.

Unlike saturated coastal regions, North Shore features a wealth of vacant land. Whether you seek sprawling acreage for large-scale projects or smaller lots for custom homes, North Shore has a canvas waiting for your vision.

Compared to neighboring regions, North Shore offers larger parcels at significantly lower prices. This translates to higher potential returns on your investment.

The Coachella Valley is experiencing a surge in growth. A new elementary school is just opened. This will help transform the area.
