Topeka, KS 66603

Upper Story RHID

RHID is expanded to include the renovation of buildings or other structures that are more than 25 years old for residential use and located in a central business district. This allows for vertical construction including improvements made to the second or higher floors of a building or other structure. This does not include improvements for commercial purposes.

The increment can be used to reimburse costs on the following types of items: property acquisition, plumbing, HVAC, walls, flooring, removal of hazardous substances or materials, roof, framing, etc. Costs incurred that benefit the entire building, such as roof, should be allocated between the non-residential and residential uses.
