Property Overview

EXECUTIVE SUMMARY

Cushman & Wakefield | Thalhimer is pleased to exclusively offer for sale Newport Estates Mobile Home Park; a stabilized 28 pad manufactured housing community located at 132 Link Circle in the community of Newport in Giles County, just north of Blacksburg in the New River Valley.

The property consists of 28 total pads and 26 occupied pads, all of which are tenant owned. Electric is independently metered and water and trash are billed directly to the tenants, resulting in a minimal owner paid expense profile.

In-place lot rents averaging \$376 sit well below market, with comparable area communities achieving asking lot rents of \$415 to \$600 per month and averaging \$553. With in-place rents approximately 32% below the comp set average, Newport Estates presents a clear mark-to-market opportunity for a new owner to grow income meaningfully while remaining attainable for residents.

Newport Estates presents as a well-maintained community, with residents maintaining their homes and lots in good condition, contributing to a clean, orderly setting and a history of consistent operations.

The community benefits from its position along the US Route 460 corridor, roughly 20 minutes from Blacksburg and Virginia Tech. Regional employers and announced investments continue to drive demand for attainable housing near expanding job centers.

Streamlined Operations, Minimal Overhead

Newport Estates operates as a 100% tenant owned community with full utility pass through. Every recurring utility at Newport Estates is either contracted directly by the tenant or recaptured through billback. Electric service is individually metered with tenant held accounts, and trash is billed directly to residents. Water is sub-metered at each pad and recaptured monthly, limiting owner paid usage to common areas. The septic systems carry no monthly utility charge and were inspected by a third party in Q4 2024. Owner utility responsibility is effectively limited to septic maintenance reserves and nominal common area maintenance, both already reflected in the Year 1 projection.

Mark to Market Opportunity

In place lot rents at Newport Estates average \$376, with 25 pads at \$375 and one pad at \$400 as of July 1, 2026. Asking lot rents at comparable manufactured housing communities across the New River Valley commuting area range from \$415 to \$600 and average \$553.

In place rents sit approximately 32% below the comp set average, a spread of roughly \$177 per pad per month. Communities in the Blacksburg and Christiansburg core command \$560 to \$600, and Newport Estates sits 20 minutes from that core along US Route 460. Even the most conservative comp in the set, at \$415, exceeds in place rents by \$39 per pad. Each \$25 monthly increase across 26 occupied pads adds approximately \$7,800 of annual income, providing a clear, measured path to NOI growth with no capital program required.

Location & Market Overview

NEW RIVER VALLEY & GILES COUNTY OVERVIEW

Newport is located along the US Route 460 corridor in Giles County, in the Northern portion of the New River Valley. The New River Valley serves as the region's primary employment center, anchored by higher education, advanced manufacturing, healthcare, and defense related industry. Blacksburg and Christiansburg, roughly 15 to 20 minutes from the property, provide convenient access to employment, education, shopping, healthcare, and daily services.

Employer / Driver	Market	Investment / Scale	Why It Matters
Virginia Tech	Blacksburg	38,000+ students; \$400M+ annual research	Largest employer in the region
Volvo Group North America	Dublin	\$400M+ investment; 2.3M SF plant	World's largest Volvo truck plant; builds every Volvo truck sold in North America
Celanese (Celco Plant)	Narrows / Giles County	\$150M plant modernization	Giles County's largest employer and taxpayer
Radford University	Radford	7,000+ students	Top five regional employer
Carilion New River Valley Medical Center	Christiansburg	Region's primary full-service hospital	Part of the Carilion Clinic health system
Radford Arsenal (BAE Systems)	Radford	\$1.3B contract; 3,000 workers	Sole domestic producer of military grade nitrocellulose

Newport lies just north of Blacksburg and Virginia Tech, near the West Virginia border. With continued investment activity across the New River Valley and along the I-81 corridor, the region has become increasingly important to Southwest Virginia's industrial growth story, attracting advanced manufacturing investment and sustained employment generating development.

Together, the New River Valley and Giles County represent a connected local market supported by established employers, industrial infrastructure, workforce access, and continued investment activity. Existing anchors such as Virginia Tech, Volvo Group North America, BAE Systems at the Radford Army Ammunition Plant, Celanese, Carilion Clinic, Radford University, Moog, and HCA LewisGale provide a durable employment foundation.

NEW RIVER VALLEY ECONOMIC DRIVERS

The New River Valley's stable employment growth is driven by continued investment in advanced manufacturing, higher education, healthcare, and defense related industry, resulting in durable demand for attainable housing strengthened by Newport Estates' position along the US Route 460 corridor, roughly 20 minutes from Blacksburg and Virginia Tech, the region's largest employer and one of the most dynamic markets in Southwest Virginia.

VIRGINIA TECH

Research & Innovation Strengthening the New River Valley

Virginia Tech is the region's largest employer and one of the nation's leading public research universities, enrolling more than 38,000 students. The university's annual research expenditures exceed **\$400 million**, with a stated goal of \$600 million by 2029, supporting work in engineering, cybersecurity, health sciences, agriculture, transportation, and national security.

The university also supports commercialization and industry partnerships through the **Virginia Tech Corporate Research Center**, which houses about **200 resident companies** and serves as a hub for technology transfer and startup growth.

VOLVO

Major Investments & Projects

Volvo Trucks' **New River Valley (NRV) plant in Dublin, Pulaski County, Virginia** is one of the region's largest private employers, with approximately 3,000 workers, and is the largest Volvo truck manufacturing facility in the world. The 2.3 million square foot plant builds every Volvo truck sold in North America.

Volvo has committed more than **\$400 million** to the site in recent years, including a \$208 million federal grant awarded in 2024 to expand electric truck production, one of the largest manufacturing investment programs in Southwest Virginia's history.

MOOG

Aerospace & Defense

Moog's Blacksburg operation is a specialized manufacturing and engineering site focused on precision electromechanical motion control products and components used in aerospace, defense, medical, and industrial applications.

The facility supports Moog's broader aerospace and defense supply chain and reinforces the New River Valley's growing concentration of advanced manufacturing and defense related employment.

CARILION MEDICAL CENTER

Regional Healthcare Anchor

Carilion New River Valley Medical Center in Christiansburg is the region's primary hospital, serving Montgomery, Giles, Floyd, and Pulaski counties as part of Carilion Clinic, one of Virginia's largest health systems.

Carilion Giles Community Hospital in Pearisburg, 15 minutes from the property, extends healthcare access into Giles County.
