Bearden/West Town Trade Area

The Bearden/West Town submarket represents one of Knoxville's most established and consistently active commercial zones, anchored by the Kingston Pike corridor to the north and bounded by I-40 to the south. The area functions as a primary retail, service, and professional destination for West Knoxville — a dense, built-out infill market with limited new supply and strong repeat-traffic dynamics driven by an established residential base.

The subject property sits within this submarket with direct access to Sutherland Avenue and proximity to Kingston Pike's high-volume commercial spine, placing it at the center of a trade area serving over 156,000 residents within five miles with a median household income of \$52,137. The surrounding corridor hosts a concentration of professional services, contractors, specialty retail, and owner-operated businesses — a tenant mix that reflects stable, need-based demand with low turnover and limited vacancy exposure.
