This Memorandum does not constitute a representation that the business or affairs of the property or seller since the date of preparation of this Memorandum have remained the same. Analysis and verification of the information contained in this Memorandum are solely the responsibility of the prospective purchaser.

Additional information and an opportunity to inspect the property will be made available upon written request of interested and qualified prospective purchasers. Seller and agent each expressly reserve the right, at their sole discretion, to reject any or all expressions of interest or offers regarding the property, and/or terminate discussions with any party at any time with or without notice. Seller reserves the right to change the timing and procedures for the offering process at any time in seller's sole discretion. Seller shall have no legal commitment or obligations to any party reviewing this Memorandum, or making an offer to purchase the property, unless and until such offer is approved by seller, and a written agreement for the purchase of the Property has been fully executed and delivered by seller and the purchaser thereunder.

The Opportunity

The Opportunity

Newmark (NASDAQ: NMRK) has been exclusively retained to sell the fee simple interest in the three-property portfolio at Glendale Milford Road and Springfield Pike in Woodlawn, Ohio. The property is comprised of two warehouse distribution buildings totaling almost 500,000 SF on two parcels totaling 45 acres, with supporting facilities including a guard booth, truck repair building, truck wash building, cross-dock building, and fuel station. The third parcel on the corner is a restaurant leased month-to-month. The property benefits from its central location inside I-275, traffic signal access at Glendale Milford Road, and proximity to I-75 and I-275.

Total industrial vacancy in Greater Cincinnati has dropped from 5.7% at year-end 2025 to 4.8% in the first quarter of 2026, moving below the long-term average of 5.3% making purchase options of this size and quality extremely limited. This property presents an opportunity to the owner for immediately available space for occupancy, with upside potential for new construction or expansion, generating income through leasing, and development of outlots along the property's 2,400' of road frontage.

Area Overview

Area Overview

MARKET OVERVIEW

Greater Cincinnati is a diversified, affordable Midwest metro spanning Ohio, Kentucky, and Indiana, anchored by nationally recognized employers, top-tier universities and healthcare systems, and a revitalized urban core. The region's steady population and job growth, competitive cost of living, and deep talent pipeline support a broad base of industries—from consumer products and finance to healthcare, advanced manufacturing, and technology making it an attractive place to live, work, and invest. Located at the intersection of two rivers, three major interstate highways, two class-A railways, two active Foreign Trade Zones, and one international airport, the Cincinnati region enjoys unbeatable proximity to most major cities within a one-day drive and a globally competitive logistics industry. With DHL and the Amazon Prime Air Hub, the region is one of the most connected and capable places in the world for moving goods.

Area Overview

PREMIER MULTIMODAL LOGISTICS HUB

Greater Cincinnati is one of the premier logistics hubs in the United States, offering multimodal connectivity that allows companies to move goods efficiently by air, truck, rail, and barge. Positioned at the convergence of I-71, I-74, and I-75, the region provides one-day truck access to more than half of the U.S. population, enabling distributors to reach major Midwest, Northeast, and Southeast markets with exceptional speed and cost efficiency. This strategic infrastructure has attracted some of the nation's largest occupiers, which leverage Cincinnati's transportation network to support regional, national, and international supply chains. Extensive Class I rail service and direct access to the Ohio River further enhance the market's ability to accommodate high-volume distribution, manufacturing, and e-commerce operations.

CVG

A key differentiator is Cincinnati/Northern Kentucky International Airport (CVG), one of the most significant cargo gateways in North America. CVG handles approximately 2.1 million tons of cargo annually and ranks as the 6th-largest cargo airport in North America and 12th globally. The airport serves as both Amazon Air's primary U.S. hub and DHL's Americas Superhub, creating a logistics ecosystem unmatched by most U.S. markets. This concentration of global logistics infrastructure supports time-sensitive distribution, e-commerce fulfillment, and international trade while reinforcing Cincinnati's position as a mission-critical supply chain location. For investors and owner-operators, the presence of industry leaders, combined with best-in-class multimodal transportation access, continues to drive strong industrial demand and long-term market growth.

Premier Manufacturing Hub

The Cincinnati region offers one of the best ecosystems for manufacturers to thrive and grow. Regional growth in manufacturing has more than doubled the national average during the last five years. A fast-growing economy, 24% more workers, and one of the busiest inland ports—combined with skilled talent and strong market access—are just a few of the many reasons employers choose Greater Cincinnati with confidence.

AEROSPACE & AVIATION

Ohio is the birthplace of aviation. Greater Cincinnati is a magnet for aerospace manufacturing innovation, with hundreds of suppliers fueling a booming aerospace manufacturing ecosystem, producing aerospace products and parts at three times the national average thanks to a reliable, resilient supply chain, top-tier aerospace education, and direct access to the sixth-largest cargo hub in the U.S. at CVG Airport.

AUTOMOTIVE

Ranked among the top three states for automotive manufacturing, Ohio—and Greater Cincinnati in particular—is positioned to support the industry’s next chapter, from electric to autonomous vehicles. Cincinnati gives automotive manufacturers something rare: stability with room to grow. The region sits at the center of major production networks, backed by a strong manufacturing base, abundant and reliable power, flexible labor conditions, and transportation assets that keep supply chains moving.

With certified, development-ready sites and significant industrial redevelopment underway, companies can scale quickly and confidently. Add in a cost-effective workforce and excellent access to markets and suppliers, and Cincinnati becomes a place where operations stay resilient, production stays on schedule, and long-term investments can thrive.

CHEMICALS AND MATERIALS MANUFACTURING

The Cincinnati region is proven ground to ensure success. Here, chemical and materials companies find the infrastructure to scale, the logistics to move fast, and the talent to keep complex operations running strong. Whether for producing foundational chemicals or next-gen materials for semiconductors, EVs, or sustainable packaging, Greater Cincinnati is a place built to support complex manufacturing, emerging technologies, and the evolving demands of modern supply chains.

Ohio is already the #1 state for polymer and plastics output, and the Cincinnati region stands at the center of that momentum. Chemical manufacturing here is twice as concentrated as the national average.

The region's workforce is experienced across key segments (basic chemical production, plastics and resins, adhesives, cleaning compounds, and toiletries), making it easy for companies to scale with confidence.

FOOD, FLAVORING & BEVERAGE

Global market dynamics, technical advances, and ever-evolving consumer preferences continue to drive transformation in food production, which represents a unique marriage of science, technology, agriculture, manufacturing, and marketing. Cincinnati is already home to Kroger, Nestlé Purina and General Mills—alongside urban farming pioneers and startups like 80 Acres Farms. This sector serves as a major economic driver, employing over 22,000 people and job growth currently at 15%.

Companies succeed here because the fundamentals are in place: close proximity to major markets and a robust supply chain, dependable utilities, a skilled workforce, and a culture that invests in innovation. Here, you can access raw materials, develop a brand identity, move products quickly, scale with confidence, and hire the talent you need.

- Adding jobs faster than the national average (1,200 in the past five years).
- Home of the nation's first fully automated indoor farm (80 Acres Farms).
- Leading in cold storage investments across Ohio.
- Supporting growth through incubators, accelerators and capital networks that invest in farming, food, beverage, and flavor innovations.
- Strengthened by the Cincinnati region's rising cultural reputation.
- A base to major retail distributors.
