

National Capital Business Park Leasing Opportunities

Avenue31

National Capital Business Park (NCBP) is a 40 ha (100 acre), master planned, state-of-the-art, industrial and logistics park located in the heart of the National Capital Region in Ottawa. Developed under a 49-year ground lease with the National Capital Commission (commenced January 1, 2020), the Park features numerous sustainability initiatives for site and building design, intended to assist tenants in meeting their climate change goals and objectives. The park also enjoys flexible and permissive zoning that permits a wide range of industrial uses, including outside storage.

The full buildout of the NCBP will see seven new buildings constructed across the park, resulting in approximately 120,774 m² (1.3 million ft²) of new business industrial floorspace. Construction of the first 41,300 m² (445,000 ft²) has already commenced and is scheduled for substantial completion in early 2023. The completion and opening of Last Mile Drive in Fall 2022 provides a direct connection between the park and Highway 417 via Hunt Club Road.
