	RESUBMITTAL REQUIRED		ON SITE PIPING
	INSUFFICIENT FOR REVIEW*		

COMMENTS

1. As this request for exception was transmitted prior to the submittal of the site development application, a Conditional Approval has been issued. The condition of approval is that, prior to issuance of development order, the final design plans be reviewed and determined to be consistent with the calculations and proposed model elements. Otherwise, a future design exception for this project will be required.

Note: This application has been reviewed by the County's Stormwater Consultant and the above comments have been verified by the Development Review Section Stormwater Staff.
