**ONE OF FRESNO'S LANDMARK
OFFICE BUILDINGS**

THE OPPORTUNITY

Colliers | Fresno is proud to introduce this one-of-a-kind, landmark office building available for sale as a prime office investment in Northeast Fresno. This classic three-story office building known as the Santa Maria Building, is centrally located within the Early California Corporate Center. With a historically high occupancy rate, this Class "A" building provides a unique opportunity with substantial upside, **due to the below market lease rates**. True pride of ownership has kept this exceptional office building as an ageless, historic landmark property in the highly desirable Northeast Fresno market. A majority of the tenants have been in the building on longer-term leases and numerous lease renewals.

- *Currently ±93% leased*
- *New roof surface to flat section; [August 2025](#)*
- *Tenant balconies on floors 2 & 3*
- *Well maintained building common areas*
- *Less than .5 miles to Herndon/Freeway 41 on/off ramps*
- *Within walking distance to St. Agnes and Kaiser hospitals*
- *Priced well below replacement value*
- *Accessibility Compliance 7/18/2023 – substantial ADA compliance site work completed in common areas*

FRESNO OFFICE MARKET SUMMARY

FRESNO OFFICE INVESTMENT SALES SUMMARY

Fresno saw \$80.8 million in office transactions during the past 12 months, trailing the 10-year annual average of \$109 million.

Sales volume has been modest since 2022, but picked up in the second quarter when the Fig Garden Center traded. The sale included two office properties sold for an allocated price of \$33.5 million. In January, a private buyer purchased 978 N Temperance Avenue, a 10,600-SF property in Clovis, from the Fresno Nephrology Medical Group for \$3.45 million (\$325/SF). The buyer secured a \$4.19 million loan from FFB Bank to purchase the 2021-built property. The seller acquired the property in March 2022 for \$2.95 million (\$280/SF).

Average pricing of \$160/SF is around 40% below the \$260/SF national average. Market pricing peaked in early 2022 and has been stagnant since, primarily due to lack of quality inventory. With anticipated lower interest rates hopefully in the near future, it is expected that values will start to increase.

Fresno Office Market Summary

Fresno is the largest office market in California's Central Valley, with more than double the inventory of Bakersfield, 100 miles south. The location has been popular among government agencies servicing areas throughout the Golden State. In addition to several large private-sector occupiers, the state and federal governments occupy space in the market.

Fresno has a primarily regionally focused tenant base, and has been relatively insulated from many of the national trends impacting the office market. Demand has held up over the past two years as user sales and healthcare tenants have created space demand. Vacancy in the market is 8.4% during the third quarter, well below the 14.2% national office average.

Vacancy/Net Absorption

Occupancies in the market have allowed rents to see modest growth of 0.7% over the past 12 months. Fresno is one of the most cost effective office markets in the state, with average asking rents of \$24.00/SF.

Limited speculative development over the past 15 years has helped to insulate Fresno's vacancy rate. The current construction pipeline comprises 170,000 SF, with around 50% of the space in the pipeline available for lease. The two largest speculative projects are 6750 N Fresno Street, a 50,000-SF medical office building in Fresno, and 700 W Herndon Avenue, a 45,000-SF project in the Hernon Pinnacle Office Complex in Clovis. Both developments are scheduled to finish this year.

North Fresno Submarket

The North Fresno office submarket has a vacancy rate of 7.0% as of the third quarter of 2025. Over the past year, the submarket's vacancy rate has changed by -0.8%, a result of 9,500 SF of net delivered space and 33,000 SF of net absorption. North Fresno's vacancy rate of 7.0% compares to the submarket's five-year average of 7.5% and the 10-year average of 8.8%.

The North Fresno office submarket has roughly 240,000 SF of space listed as available, for an availability rate of 8.1%. As of the third quarter of 2025, there is 59,000 SF of office space under construction in North Fresno. In comparison, the submarket has averaged 20,000SF of under construction inventory over the past 10 years.

Local Overview
& Demographics

LOCAL ECONOMY

Like virtually all of the Central Valley, agriculture drives the local economy. Fresno County's agricultural industry contributes over \$8 billion annually to the California economy and supports roughly 20% of all local jobs; the metro is one of the top-producing agricultural regions in the nation. Fresno County's agricultural output has expanded, benefiting from advancements in technology, such as precision farming, which enhances productivity and sustainability.

Education and health services have consistently seen job growth with increases over 4% year after year. California State University, Fresno remains a major driver of economic growth as it continues to grow in both size and influence. Fresno's healthcare sector is seeing significant growth, with new facilities and expanded services being added to meet the needs of a growing population. The development of new medical centers and specialty healthcare facilities boosts the local economy by providing jobs and attracting medical professionals.

Fresno's manufacturing sector is expanding, with increased production in food processing, machinery, and metal fabrication. This growth is largely driven by the demand for products that support agriculture and other industries. Fresno's central location along major transportation routes like I-5 and Highway 99 positions it as a critical logistics and distribution hub. The region's infrastructure supports the efficient movement of goods, enhancing trade and contributing to overall economic growth.

While not yet a major tech hub, Fresno is seeing growth in technology, particularly in agri-tech and water innovation. Local initiatives are fostering entrepreneurship and supporting startups in fields that align with the region's strengths in agriculture and sustainability.

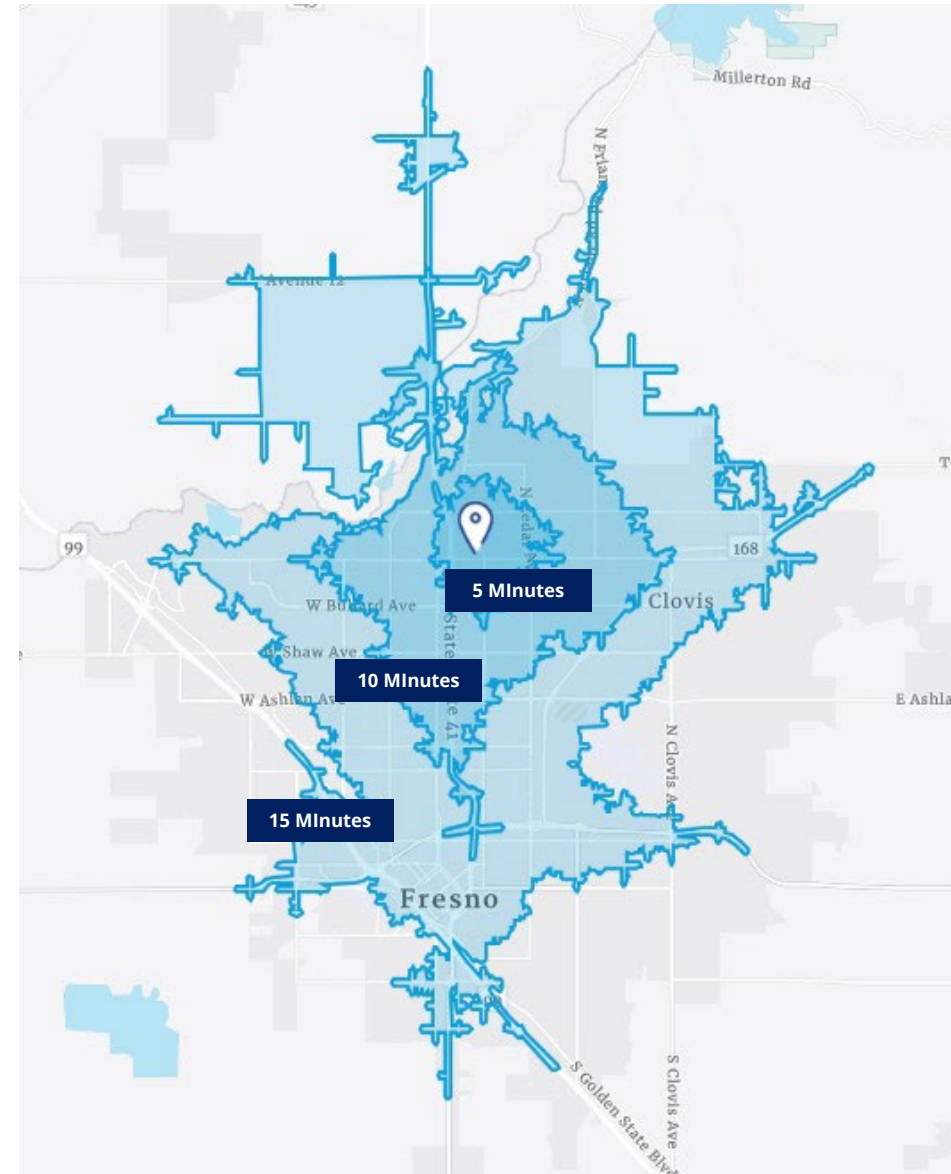

Fresno's economy is expanding a range of sectors, from agriculture and manufacturing to healthcare and technology. The city's affordable cost of living, strategic location, and growing infrastructure are attracting new businesses and residents. With continued investment in workforce development, innovation, and sustainability, Fresno is well-positioned for long-term economic prosperity.
