## Zoning

The Urban Business District (UBD) permits a wide range of residential, retail, service, office, light manufacturing and warehouse uses at a slightly lower intensity than the CBD. Thus district is also intended to provide for the conversion of older office, industrial and warehousing areas with multi-story buildings to residential, commercial, office or other uses for which the buildings, at the present time, may be better suited.

Schedule 150.320.2 PERMITTED USES IN DOWNTOWN DISTRICTS
