# PROPERTY SUMMARY

## PROPERTY DESCRIPTION

An exceptional development opportunity located in the high-growth corridor of Downtown Jamaica, Queens. 155-01 and 155-03 Jamaica Avenue offer developers a 6,047 sq. ft. midblock parcel boasting 46 feet of frontage on Jamaica Avenue. The property's powerful C6-3 zoning, within the Special Downtown Jamaica District (DJ), provides tremendous flexibility for a developer. For visionary developers poised to capitalize on potential upzoning, the future ZFA for this property could further increase to approximately 72,564 Sq. Ft. with the affordability component, offering immense development potential. The site allows for a substantial as-of-right development envelope, offering up to 45,473 BSF for residential use or a significant 48,376 BSF for a commercial project. Delivered vacant, the property provides a clear path for a major ground-up construction project. This site is strategically positioned to capitalize on Downtown Jamaica's ongoing revitalization, making it a compelling opportunity to deliver a new Class-A building in one of New York City's most dynamic emerging submarkets.

## PROPERTY HIGHLIGHTS
