

YOUR PRIVATE OFFICE AWAITS!

VENTURE X CHICAGO - DEERFIELD
Great for Individuals or Teams

[Book Online](#)

Venture X flexes with your business size.

Private offices at Venture X are ideal for professionals looking to work in a collaborative community but with access to an enclosed space to call their own. The Private Office option is a perfect flexible space solution for growing teams because it provides a sense of autonomy within the larger community. Teams can work on sensitive projects in the privacy of their private office spaces and take breaks in the community area. With a floor-to-ceiling glass wall that faces the community, private offices feel open but are insulated for sound and offer visual privacy on three sides. Our private offices can accommodate one to ten-member teams and are accessible 24/7.

Come see for yourself.

Private Office spaces are ideal for teams on the grow. Scale up or down with your space as needed and move up to our Enterprise membership plan when your corporate image calls for a larger footprint. Venture X flexes with your business goals.
