MARKET OVERVIEW

Albany is in the central part of Oregon’s most populated region, the Willamette Valley. The city rests along the confluence of the Calapooia and Willamette rivers, and although most of the Albany falls within Linn County, a smaller portion of the town rests to the north of its downtown on the west bank of the Willamette River in Benton County.

According to the United States Census Bureau, the city has a total area of 17.75 square miles (45.97 km²), of which 17.54 square miles (45.43 km²) is land, and 0.21 square miles (0.54 km²) is water. Albany has 21.7 square miles (56 km²) within its urban growth boundary. Throughout the city limits and metropolitan growth area, there are limited hills; the city is one of the lowest points along the Willamette Valley, with elevations ranging from 180 to 430 feet (55 to 131 m) above sea level. The North Albany district has the most variable elevation, while the downtown and southern end of town have little elevation change throughout.
