LOCATION OVERVIEW

BATON ROUGE MSA ECONOMIC HIGHLIGHTS

The state capital of Louisiana, Baton Rouge, is the fifth largest city on the Mississippi River and home to Louisiana's largest parish. Strategically seated at the mouth of the Mississippi River, the Baton Rouge area's assets are integral to the nation's logistics and energy networks. Additionally, the city boasts a thriving arts culture and food scene making it a hub for unique festivals all year long.

The city of Baton Rouge is a major industrial, petrochemical, medical, research, motion picture, and growing technology center of the American South. It is the location of Louisiana State University, the state's flagship university and the largest institution of higher education. It is also the location of Southern University, the flagship institution of the Southern University System, the only historically black college system in the nation.

The Port of Greater Baton Rouge is the 8th-largest in the United States in terms of tonnage shipped and is the farthest upstream Mississippi River port capable of handling Panamax ships. This, as well as its status as a major port city, is largely due to the Huey P. Long - O.K. Allen Bridge, which was intentionally constructed under the governorship of Huey Long at a low height, preventing big tankers from making their way up-river, past Baton Rouge.
