About this segment

Up and Coming Families

This is the

#1

dominant segment for this area

In this area

44.9%

of households fall into this segment

In the United States

2.8%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Up and Coming Families is a market in transition. Residents are younger and more mobile than the previous generation. They are ambitious, working hard to get ahead, and willing to take some risks to achieve their goals. The recession has impacted their financial well-being, but they are optimistic. Their homes are new; their families are young. And this is one of the fastest-growing markets in the country.

Our Neighborhood

- New suburban periphery: new families in new housing subdivisions. Building began in the housing boom of the 2000s and continues in this fast-growing market. Single-family homes with a median value of \$194,400 and a lower vacancy rate. The price of affordable housing: longer commute times

Socioeconomic Traits

- Education: 67% have some college education or degree(s). Hard-working labor force with a participation rate of 71%. Most households (61%) have 2 or more workers. Careful shoppers, aware of prices, willing to shop around for the best deals and open to influence by others' opinions. Seek the latest and best in technology. Young families still feathering the nest and establishing their style.

Market Profile

- Rely on the Internet for entertainment, information, shopping, and banking. Prefer imported SUVs or compact cars, late models. Carry debt from credit card balances to student loans and mortgages, but also maintain retirement plans and make charitable contributions. Busy with work and family; use home and landscaping services to save time. Find leisure in family activities, movies at home, trips to theme parks or the zoo, and sports; from golfing, weight lifting, to taking a jog or run.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About this segment

Boomburbs

This is the

#2

dominant segment for this area

In this area

28.5%

of households fall into this segment

In the United States

1.9%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

This is the new growth market, with a profile similar to the original: young professionals with families that have opted to trade up to the newest housing in the suburbs. The original Boomburbs neighborhoods began growing in the 1990s and continued through the peak of the housing boom. Most of those neighborhoods are fully developed now. This is an affluent market but with a higher proportion of mortgages. Rapid growth still distinguishes the Boomburbs neighborhoods, although the boom is more subdued now than it was 10 years ago. So is the housing market. Residents are well-educated professionals with a running start on prosperity.

Our Neighborhood

- Growth markets are in the suburban periphery of large metropolitan areas. Young families are married with children; average household size is 3.25. Homeownership is 84% (Index 134), with the highest rate of mortgages, 71.5%. Primarily single-family homes in new neighborhoods, 66% built since 2000. Median home value is \$350,000. Lower housing vacancy rate at 3.7%. The cost of affordable new housing comes at the expense of one of the longest commutes to work, over 30 minutes average, including a disproportionate number (33.6%) commuting across county lines.

Socioeconomic Traits

- Well-educated young professionals, 55% are college graduates. High labor force participation at 71.3%; most households have more than two workers. Longer commute times from the suburban growth corridors have created more home workers. Well connected, own the latest devices and understand how to use them efficiently; biggest complaints —too many devices and too many intrusions on personal time. Financial planning is well under way for these professionals.

Market Profile

- Boomburbs residents prefer late model imports, primarily SUVs, and also luxury cars and minivans. This is one of the top markets for the latest in technology, from smartphones to tablets to internet connectable televisions. Style matters in the Boomburbs, from personal appearance to their homes. These consumers are still furnishing their new homes and already remodeling. Enjoy gardening but more often contract for home services. Physical fitness is a priority, including club memberships and home equipment. Leisure includes a range of activities from sports (hiking, bicycling, swimming, golf) to visits to theme parks or water parks. Residents are generous supporters of charitable organizations.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About this segment

Workday Drive

<p>This is the</p> <h1>#3</h1> <p>dominant segment for this area</p>	<p>In this area</p> <h1>9.8%</h1> <p>of households fall into this segment</p>	<p>In the United States</p> <h1>3.1%</h1> <p>of households fall into this segment</p>
--	---	---

An overview of who makes up this segment across the United States

Who We Are

Workday Drive is an affluent, family-oriented market with a country flavor. Residents are partial to new housing away from the bustle of the city but close enough to commute to professional job centers. Life in this suburban wilderness offsets the hectic pace of two working parents with growing children. They favor time-saving devices, like banking online or housekeeping services, and family-oriented pursuits.

Our Neighborhood

- Workday Drive residents prefer the suburban periphery of metropolitan areas. Predominantly single family, homes are in newer neighborhoods, 34% built in the 1990s, 31% built since 2000. Owner-occupied homes have high rate of mortgages at 68%, and low rate vacancy at 4%. Median home value is \$257,400. Most households are married couples with children; average household size is 2.97. Most households have 2 or 3 vehicles; long travel time to work including a disproportionate number commuting from a different county

Market Profile

- Most households own at least 2 vehicles; the most popular types are minivans and SUVs. Family-oriented purchases and activities dominate, like 4+ televisions, movie purchases or rentals, children's apparel and toys, and visits to theme parks or zoos. Outdoor activities and sports are characteristic of life in the suburban periphery. They attend sporting events, as well as participate in them like bicycling, jogging, golfing, and boating. Home maintenance services are frequently contracted, but these families also like their gardens and own the tools for minor upkeep, like lawn mowers, trimmers, and blowers.

Socioeconomic Traits

- Education: 40.5% college graduates; more than 72% with some college education. High labor force participation rate at 71%; 2 out of 3 households include 2+ workers. Connected, with a host of wireless devices, anything that enables convenience, like banking, paying bills, or even shopping online. Well insured and invested in a range of funds, from savings accounts or bonds to stocks. Carry a higher level of debt, including first and second mortgages and auto loans.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About this segment

Urban Edge Families

This is the

#4

dominant segment for this area

In this area

7.3%

of households fall into this segment

In the United States

1.5%

of households fall into this segment

An overview of who makes up this segment across the United States

Who We Are

Located throughout the South and West, most Urban Edge Families residents own their own homes, primarily single-family housing—out of the city, where housing is more affordable. Median household income is slightly below average. The majority of households include younger married-couple families with children and, frequently, grandparents. Many residents are foreign born. Spending is focused more on the members of the household than the home. Entertainment includes multiple televisions, movie rentals, and video games at home or visits to theme parks and zoos. This market is connected and adept at accessing what they want from the Internet.

Our Neighborhood

- Urban Edge Families residents are family-centric. Most are married couples with children of all ages or single parents; multigenerational homes are common. Average household size is higher at 3.19. Residents tend to live further out from urban centers—more affordable single-family homes and more elbow room. Tenure is slightly above average with 64% owner occupancy; primarily single-family homes with more mortgages and slightly higher monthly costs. Three quarters of all housing were built 1970 or later. Many neighborhoods are located in the urban periphery of the largest metropolitan areas across the South and West. Most households have one or two vehicles available and a longer commute to work.

Market Profile

- When dining out, these residents favor fast-food dining places such as Taco Bell or Little Caesar's, as well as family-friendly restaurants like Olive Garden, Denny's, or IHOP. Cell phones are preferred over landlines. Favorite channels include Animal Planet, MTV, ABC Family Channel, Bravo, and Nick Jr., as well as programming on Spanish TV. Residents listen to urban or Hispanic radio. During the summer, family outings to theme parks are especially popular.

Socioeconomic Traits

- Nearly 17% have earned a college degree, and 63% hold a high school diploma only or have spent some time at a college or university. Labor force participation is higher at 66%. Most Urban Edge Families residents derive income from wages or salaries. They tend to spend money carefully and focus more on necessities. They are captivated by new technology, particularly feature-rich smartphones. Connected: They use the Internet primarily for socializing but also for convenience, like paying bills online.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. About this segment

Bright Young Professionals

<p>This is the</p> <p>#5</p> <p>dominant segment for this area</p>	<p>In this area</p> <p>3.0%</p> <p>of households fall into this segment</p>	<p>In the United States</p> <p>2.3%</p> <p>of households fall into this segment</p>
---	--	--

An overview of who makes up this segment across the United States

Who We Are

Bright Young Professionals is a large market, primarily located in urban outskirts of large metropolitan areas. These communities are home to young, educated, working professionals. More than one out of three householders is under the age of 35. Slightly more diverse couples dominate this market, with more renters than homeowners. More than two-fifths of the households live in single-family homes; over a third live in 5+ unit buildings. Labor force participation is high, generally white-collar work, with a mix of food service and part-time jobs (among the college students). Median household income, median home value, and average rent are close to the US values. Residents of this segment are physically active and up on the latest technology.

Our Neighborhood

- Approximately 57% of the households rent; 43% own their homes. Household type is primarily couples, married (or unmarried), with above average concentrations of both single-parent and single-person households. Multiunit buildings or row housing make up 56% of the housing stock (row housing, buildings with 5 –19 units); 43% built 1980–99. Average rent mirrors the US. Lower vacancy rate is at 8.2%.

Socioeconomic Traits

- Education completed: 35% with some college or an associate's degree, 33% with a bachelor's degree or higher. Labor force participation rate of 72% is higher than the US rate. These consumers are up on the latest technology. They get most of their information from the Internet. Concern about the environment impacts their purchasing decisions.

Market Profile

- Own retirement savings and student loans. Own newer computers (desktop, laptop, or both), iPods, and 2+ TVs. Go online and use mobile devices for banking, access YouTube or Facebook, visit blogs, download movies, and play games. Use cell phones to text, redeem mobile coupons, listen to music, and check for news and financial information. Find leisure going to bars/clubs, attending concerts, going to the beach. Enjoy a variety of sports, including backpacking, rock climbing, football, Pilates, running, and yoga. Eat out often at fast-food and family restaurants.

About RPR (Realtors Property Resource)

- Realtors Property Resource® is a wholly owned subsidiary of the National Association REALTORS®.
- RPR offers comprehensive data – including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records.
- **Market conditions and forecasts** based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- **School data and reviews** from Niche.
- **Specialty data sets** such as walkability scores, traffic counts and flood zones.

Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
