Established by the 2017 Tax Act, **Opportunity Zones** are comprised of selected, low-income census tracts designated by governors and certified by the U.S. Treasury. These geographies are also eligible for New Markets Tax Credits and frequently other incentive programs.

**Opportunity Zones** provide tax incentives to connect private investment capital with low-income communities. The strategy provides preferential tax treatment for those who invest unrealized capital gains in Opportunity Funds. The Opportunity Funds then invest the capital in Opportunity Zone businesses and real estate.

**Opportunity Zone:** A low-income census tract (LIC), as determined within New Markets Tax Credits legislation, is designated as an Opportunity Zone (OZ) by the governor of the state or territory in which it is located. Designations will stay in place for 10 years.

Up to 25% of LICs in a U.S. state or territory may be designated as Opportunity Zones.

Up to 5% of census tracts contiguous to LICs may be designated as Opportunity Zones, if the median family income of the census tract does not exceed 125% of the median family income of the LIC to which the tract is contiguous.

States or territories in which there are fewer than 100 LICs may designate up to 25 LICs as Opportunity Zones.

## INVESTOR INCENTIVES INCLUDE:

**Deferral of Taxes** on capital gains invested in qualified Opportunity Zone Funds, **Reduction of Taxes** on investments held in qualified Opportunity Zone Funds 5+ years, and **Cancellation of Taxes** on new gains made through qualified Opportunity Zone Fund investments held 10+ years.
