

Eric Rehn, CCIM

VICE PRESIDENT
KENNEDY WILSON BROKERAGE

PROFILE

Since moving to Northern California in 2003, Eric has worked on over 400 commercial real estate transactions, representing landlords, tenants, sellers, buyers and investors in Contra Costa, Napa and Solano counties. He specializes in industrial property types. Current projects include multiple industrial buildings, land and office properties, as well as investment offerings and cannabis-related real estate markets.

Eric continued his commercial real estate education by achieving the coveted CCIM designation for investment expertise and has attended various workshops on related industry issues. This training allows him to provide detailed analysis of commercial property valuations. He has been involved with the CCIM organization since 2012, serving as the Northern California chapter president in 2017 and as treasurer for two terms.

His past membership on the East Bay Leadership Council's Land Use and Environmental & Manufacturing task forces kept him at the forefront of current political issues affecting commercial property in the market. He also served as a consultant to the Northern Waterfront Economic Development Initiative for Contra Costa County. Currently he serves in the Contra Costa County Taxpayers Association to promote "Good Government at Affordable Cost".

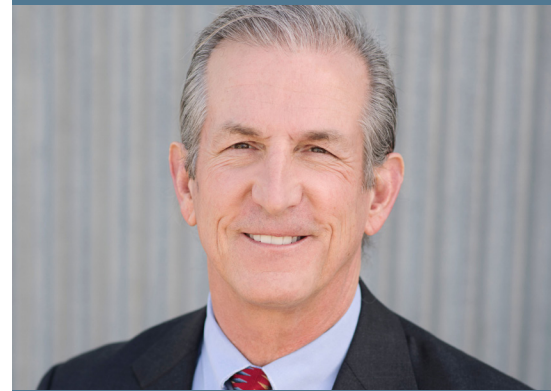

CAREER HISTORY

For 20 years prior to receiving his real estate license, Eric worked in the medical device market as a surgical sales representative for 13 years and as a product marketing/development manager for six years after that. During his tenure in the medical field, he received numerous awards for sales and marketing performance and was responsible for the worldwide launch of hundreds of products in the minimally invasive surgical market.

His understanding of client concerns is based on personal investing experiences as well as handling the real estate for the family distribution/warehouse business. This insight gives him a distinct advantage over the typical commercial broker's focus on commissions rather than achieving the client's goals.
