\$1,650,000

Asking Rent

\$6/SF NNN

Lease Term:

Negotiable

Clear Height:

21 Feet

Available Space:

~15,000-30,000 SF

Available Raw Land:

~3.9 Acres

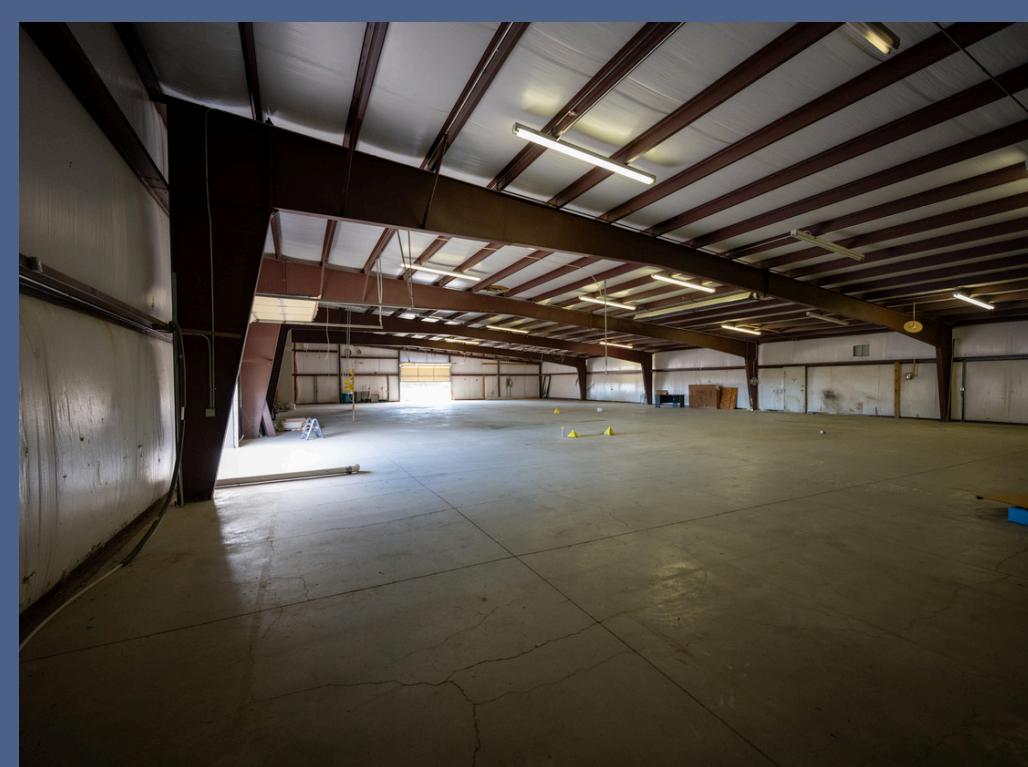

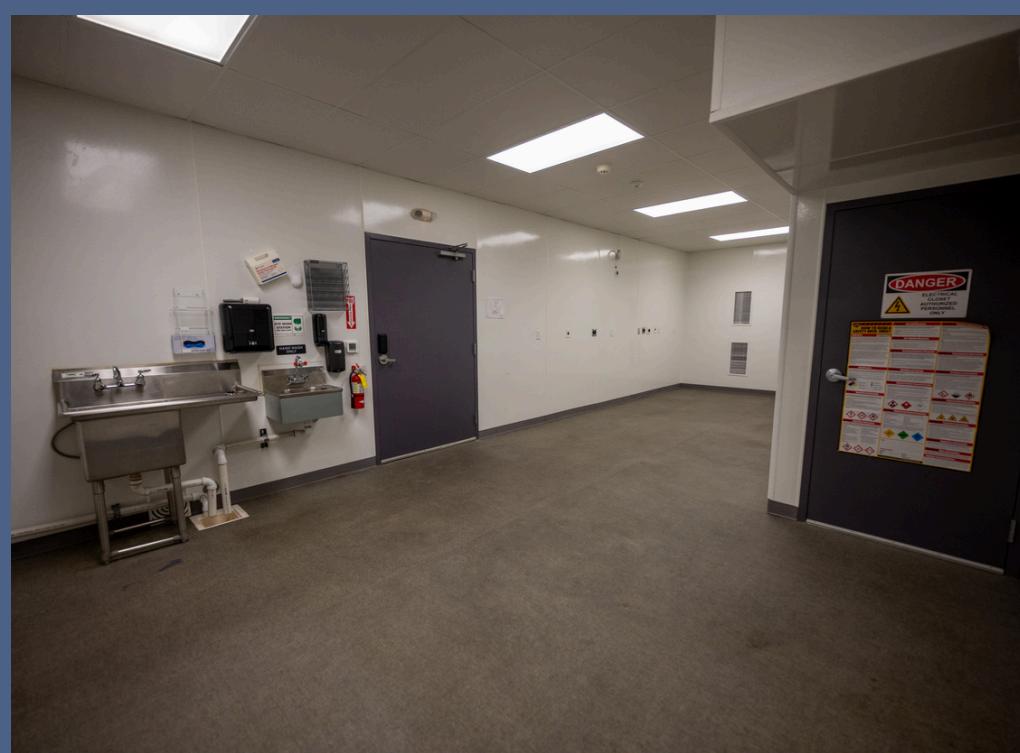

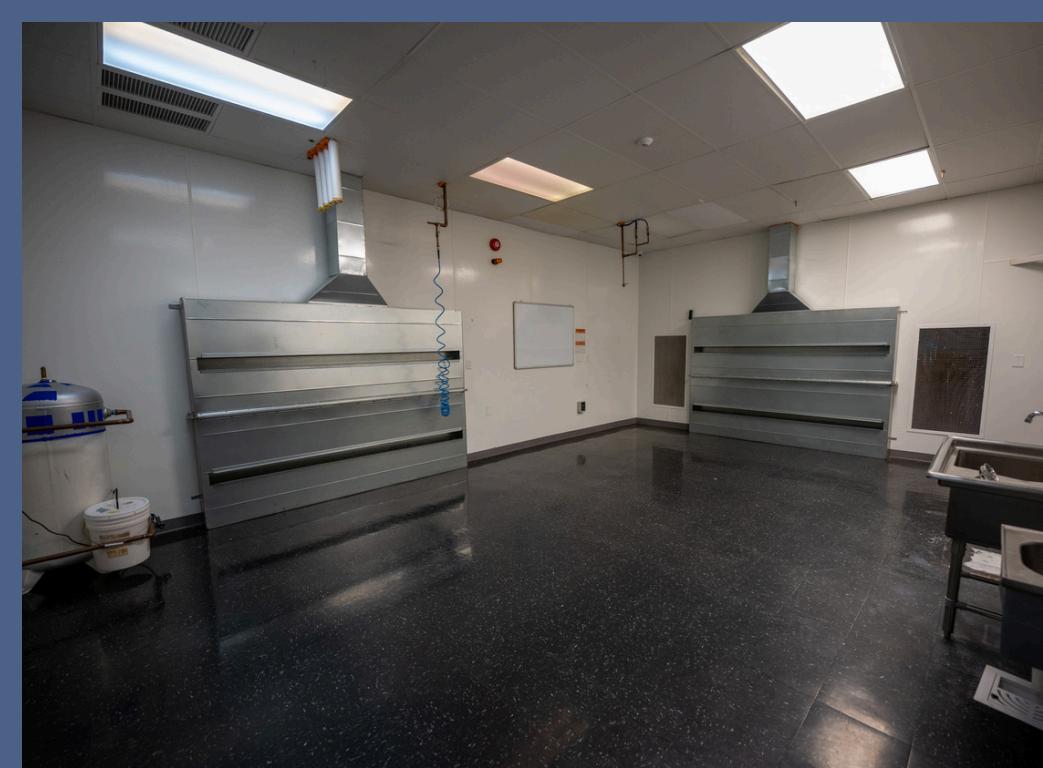

Property Description

This all-metal industrial building offers durable construction with a metal roof engineered for long-term, heavy-duty use and features an MED-approved security camera system with remote monitoring, controlled access via badge scanning. The property is configured to support medical-grade extraction, sanitation, food processing, and advanced manufacturing operations, with strong infrastructure, powerful utilities, and high-capacity HVAC systems designed to meet demanding operational requirements. Five drive-in/roll-up doors ranging from 18' x 10' to 8' x 8' allow for efficient loading, circulation, and flexible workflow throughout the facility. The building layout supports a wide range of industrial uses and can accommodate varying operational scales. The facility is available for single-tenant, multi-tenant, or yard lease configurations and is well-suited for manufacturing, distribution, fabrication, equipment rental, oil field services, outdoor storage, and other industrial or commercial applications.

Highlights
