The West Central Las Vegas submarket, a vibrant and dynamic area, offers a strategic location that combines proximity to the Strip with easy access to major transportation arteries. Situated just 7.6 miles away from Harry Reid International Airport, this submarket is ideal for logistics and distribution. The I-215 and I-15 freeways provide seamless connectivity to other parts of the city and beyond.

Evora, a mixed-use campus spanning 42 acres, is set to redefine the area with its upscale apartments, office spaces, eateries, and commercial space. This project is estimated to be completed by 2026. Additionally, the submarket is nestled near established masterplanned communities like Spanish Trails and Rhodes Ranch, offering residents a blend of urban convenience and suburban tranquility.

The West Central Las Vegas submarket is also poised to benefit from the upcoming Major League Baseball stadium on Tropicana Avenue and Las Vegas Boulevard South. This 30,000-seat venue is expected to be completed by 2028 and will undoubtedly draw crowds and boost economic activity in the area. Furthermore, the Boring Company is actively expanding the Las Vegas Loop, a high-speed underground transportation system. The recent contract to connect Allegiant Stadium and Caesars Palace is a testament to the Loop's potential to revolutionize transportation within the city.

Brightline West

The high-speed rail project connecting Las Vegas to Southern California

Brightline West will be America's first true high-speed passenger rail system. The modern, eco-friendly system will redefine train travel in America and connect two of our most iconic destinations: Las Vegas and Southern California. This 218-mile passenger rail service will operate from Las Vegas to Rancho Cucamonga, California, with 96% of its alignment within the median of the I-15 highway.

The project would connect Las Vegas to Los Angeles via a route running alongside the Interstate 15 highway, mostly within the "meridian strip" central reservation, and would include three stations in the high desert and San Bernardino County areas. Construction is expected to take about 4 years with service beginning in 2028.

Brightline West expects to offer a journey time of approximately 2 hours 15 minutes, operating at a top speed of 200 mph. This is more than twice as fast as the equivalent journey by road.

As part of the \$10 billion investment, Brightline says the "fully electric, emission-free system will be one of the greenest forms of transportation in the U.S., removing 3 million cars and 400,000 tons of CO2 each year."

It has been estimated that building the line will create 40,000 construction jobs, the Las Vegas Review-Journal reports.
