Matthews Real Estate Investment Services

50 N Laura St

Jacksonville, Florida 32202

Project Name: Dennard Industrial Land

Availability #: 2026-1880

Attn: Michael Salik

Thank you for your inquiry regarding the availability of Electric, Reclaim, Sewer, Water. The above referenced number in this letter will be the number JEA uses to track your project. Please reference this number when making inquiries and submitting related documents. This availability letter will expire two years from the date above.

Point of Connection:

A summary of connection points for requested services are identified on the following page. JEA recognizes Connection Point #1 as the primary point of connection (POC); however, a secondary, conditional POC will be listed if available. JEA assumes no responsibility for the inaccuracy of any service connection portrayed on a JEA utility system record drawing. JEA requires field verification in the form of a Level A SUE of all POCs prior to any plan approval to ensure connection availability. Please note the Special Conditions stated in each section contain pertinent information and additional requirements as well as further instructions. In the event the point of connection is located within a JEA easement located on private property not owned by applicant, applicant shall be responsible to obtain a temporary construction easement (TCE) from the third party owner providing applicant with the right to construct the utilities. **The TCE will need to be provided to JEA prior to setting up a pre-construction meeting.**

Main Extensions and/or Offsite Improvements:

For all utilities located in the public Right of Way or JEA easement, the new WS&R utilities shall be dedicated to JEA upon completion and final inspection, unless otherwise noted. **It shall be the applicant's responsibility to engage the services of a professional engineer, licensed in the State of Florida.** All WS&R construction shall conform to current JEA Water, Sewer & Reuse Design Guidelines which may be found at:

https://www.jea.com/engineering_and_construction/water_and_wastewater_development/reference_materials/

Reservation of Capacity and Capacity Fees:

This availability response does not represent JEA's commitment for or reservation of WS&R capacity. In accordance with JEA's policies and procedures, commitment to serve is made only upon JEA's approval of your application for service and receipt of your payment of all applicable fees.

If an existing service is to be utilized, the applicant shall contact the Water Preservice Group at 904-665-5260, Option 6 or waterpreservice@jea.com to discuss any additional capacity fees that may be required for the new or modified development.

Otherwise, estimated capacity fees may be calculated at https://www.jea.com/Engineering_and_Construction/Water_and_Wastewater_Development/Self-Service_Center/Capacity_Fee_Calculator_-_Average_Daily_Flow. Final fees will be determined by the Water Preservice Group as part of the new service application process.

A detailed overview of the process can be found at JEA.com. This document along with other important forms and submittal processes can be found at

https://www.jea.com/water_and_wastewater_development

Sincerely,

JEA Water, Sewer Reclaim
Availability Request Team
