## **TRUCKEE HISTORY:**

Truckee is a quaint mountain community that was established in 1863 then incorporated in 1993. Truckee, with a population of 16,180, is the largest of three incorporated cities in Nevada County (the other two - Grass Valley and Nevada City). The Town of Truckee is centrally located near Lake Tahoe, historic state parks and an abundance of emigrant and Old West history. The town was originally developed around the logging and ice manufacturing industries, and has evolved into a town of sophistication with a variety for new and established business growth opportunities.

Historically, Truckee has been considered a “tourist town” that was largely populated by second homeowners. According to an article in the *National Geographic Adventure*, Truckee was hailed as one of the World’s best ski towns and is distinguished in the article by stating that Truckee is “an inviting mountain burg steeped in ski heritage, amenities, and culture.” Tourism remains high in the Truckee and Lake Tahoe areas, and continues to progressively grow. Supposing tourism and the homeowner base remain steadily on the up-and-up during the recovery of the national recession, the increase of the Truckee population shall be a major contributing factor to the overall community growth – employment base in the retail, service, professional and government sectors – in the years to come.

## **DEMOGRAPHICS:**

Traveling to and from the Town of Truckee is made convenient with the centrally located Truckee Tahoe Airport, the close proximity of the Reno-Tahoe Airport and daily stops made by bus and train make doing business or vacationing in a mountain town more accommodating. The Town of Truckee is located in the Sierra Nevada mountain range and is a mere 200 miles (N/W) from San Francisco, 100 miles (East) from Sacramento , 40 miles (West) from Reno, NV and a matter of minutes to Lake Tahoe.
