

AQUATROL TECHNOLOGIES, INC.

WATER TREATMENT CHEMICAL FEED EQUIPMENT CONSULTING SERVICES

Working with Kevin Phillips over the past 3 years has been fantastic. We were in a bit of a rush moving offices, and he worked quickly to get us settled. Of all locations we toured- his property was far and away the cleanest and most well-kept allowing us to continue to operate efficiently as a business in a time of change. He is very professional and prompt with any requests on our end. Any questions or concerns we've had-he answered them within hours. His response time was fast, so we were never waiting around for an email or phone call. Had we not outgrown our current location; we would be renewing to work with Kevin again. I would highly recommend leasing any of Kevin's properties to family and friends.
