|  |      |      |        |           |                                      |         |         | storage areas within buildings.           |           |
|  |      |      |        |           |                                      |         |         |   |           |
| 7. Criteria for Outdoor Storage: Outdoor storage is permitted as an accessory use to a permitted principal use (without the 33 percent limitation) if the outdoor storage area is screened with an opaque material (an opaque material may |      |      |        |           |                                      |         |         |   |           |
| include vegetation). The opacity requirements are as follows: 100 percent along any property line that adjoins an existing residential use; 80 percent along any property line that adjoins any other type of use other than residential   |      |      |        |           |                                      |         |         |   |           |
| (commercial, office, etc.) or a street right-of-way. The determination of the adequacy of the opaque material will be evaluated at the time of permitting.   |      |      |        |           |                                      |         |         |   |           |

8. Street Vehicular Access Restrictions: Properties in the M-1 zoning district may have vehicular access to any type of street. However, in order to protect residential areas and neighborhoods from non-residential traffic, vehicular access to a local street is prohibited if one of the following zoning districts is located on the other side of the local street: RA, R-1, R-2, R-3, R-4, R-5, MH, MR-1, and RP

9. Fencing Requirement: All areas proposed for use, currently used, or previously used, in open-pit mining operations and/or construction and demolition debris disposal must be secured by a fence, unless the area is determined to be a reclaimed open-pit mine by the county administrator or designee. The fence must be at least four feet in height with openings that will reject the passage of a seven-inch diameter sphere. The fence must be equipped with a gate which shall remain locked when workers or employees of the land owner or mining company are not present at the site. At every gate or access point, at least one sign must be posed which states, in at least four-inch tall letter, "Danger," "Keep Out," "No Trespassing," or similar language to indicate that there may be hazardous conditions on the premises.

#### **GENERAL NOTES:**

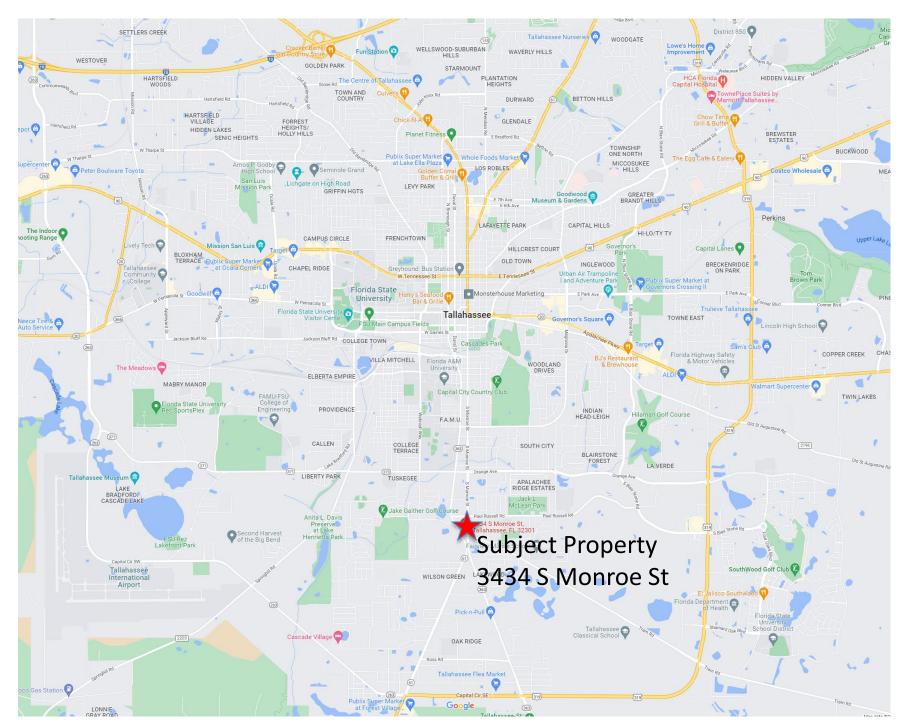

1. If central sanitary sewer is not available, residential development is limited to a minimum of 0.50 acre lots and non-residential development is limited to a maximum of 2,500 square feet of building area. Community service facilities are limited to a maximum of 5,000 square feet of building area or a 500 gallon septic tank. Also, refer to Sanitary Sewer Policy 2.1.12 of the Comprehensive Plan for additional requirements.

2. Refer to the Environmental Management Act (EMA) for information pertaining to the regulation of environmental features (preservation/conservation features), stormwater management requirements, etc.

3. Refer to the Concurrency Management Ordinance for information pertaining to the availability of capacity for certain public facilities (roads, parks, etc.)
