**SPECIAL BENEFITS AVAILABLE TO OWNERS OF  
COMMERCIAL CONDOMINIUM UNITS**

Commercial condominium units have their own parcel numbers, and buyers own their units in fee simple. They can customize, refinance, rent out, or sell their units at any time. Business owners who occupy their units enjoy many benefits that are not available to tenants, including: control of their business facilities, protection from rent increases, favorable financing at historically low, fixed rates, equity growth by paying down their mortgages instead of a landlord's, potential appreciation in the strong California real estate market, and valuable tax deductions. They are able to maintain the quality and value of their property and control their operating costs through their owners' associations and professional property managers.

**\*90% FINANCING**

*Financing is available to qualified borrowers for up to 90% of the cost of buying and customizing owner occupied Condominium. Under the 504 program, a business owner makes a down payment of 10% of the value of the unit, including any expected costs of customization, and borrows up to 50% of the value from a bank and 40% of the value from SBA. SBA 7(A) program loans fund up to 90% of the value of owner-occupied business real estate, customization, and equipment at adjustable rates with payments amortized over 25-year terms. For information on SBA financing and the current interest rate, contact us for our preferred lenders.*
