Port of Savannah

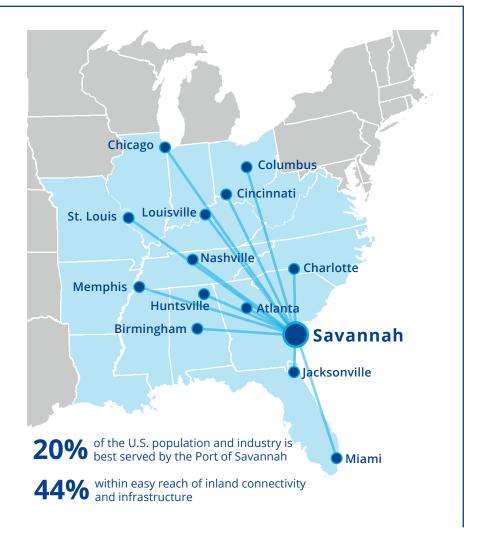

The Port of Savannah is North America's busiest single-terminal container facility with immediate access to two major interstates, I-16 and I-95.

With two Class I railroads (Norfolk Southern and CSX) on terminal with on-dock rail and line haul services, the Port has the capability to deliver to most of the U.S. population and manufacturers within a few days. This capability allows the port's influence to stretch deep into major Mid-West markets like Chicago, St. Louis, and Kansas City.

With significant investment from the State of Georgia and private developers, the Port of Savannah and the surrounding market is anticipated to see substantial growth over the next several decades.

Planning for the Future

The Georgia Ports Authority has unveiled plans to **expand the port's container capacity by 60%** bringing the Port of Savannah's annual capacity from 6 million twenty-foot equivalent container units to **9.5 million TEUs by 2025**.
