Joshua Nelson, Public Utilities Director | 626-333-2211

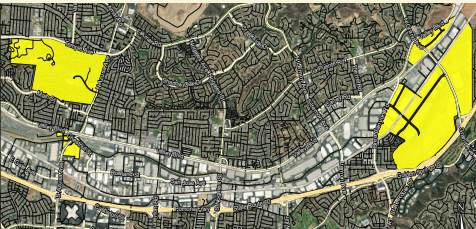

Dev Birla, Senior Energy Advisor | 626-333-0336

Len Viejo, Astrum Utility Services | 858-454-5930

*Grand Crossing South*

*Service Areas*

Offering lower electric rates, currently saving our customers an average of **47%** compared to investor-owned utility rates, saving IPU's largest customers (with a peak demand of 500kW) an average of \$242,000 annually

*(As of January 1, 2024 current system average rate)*

By the end of 2024, 89% of power provided to IPU customers will be generated from renewable energy sources, such as wind and solar

Providing reliable services with an underground 12,000-volt distribution system with redundancy at the new Grand Crossing South development

Available capacity to meet customer load requirements from the Waddingham substation and distribution system

Consistently focused on operational and service excellence

“*We are committed to providing our customers with reliable services and renewable energy resources at competitive rates.*”

*-Josh Nelson, Public Utilities Director*
