Attention: Jackie McCloud  
City of Watsonville  
Department of Public Works  
250 Main Street  
Watsonville, CA 95076

Dear City of Watsonville:

AGRON Bioenergy at 860 W Beach has conducted the **MAINTENANCE OF STORM WATER BEST MANAGEMENT PRACTICES (BMPS)** as required from October 2024 to October 2025. We have four road drains and one bioretention area.

As you will see from the attached documents, we perform these monthly and document the inspections and repairs if any are needed. This is part of our Storm Water Pollution Prevention Plan (SWPPP) required BMPs. Attached is one inspection per quarter. I will be happy to send additional inspections if requested.

Also attached are photos of the bioretention area and storm water drain to show cleanliness prior to the first rain event.

Please contact me at 831-717-8558 if anything further is needed.

Regards,

Agron Bioenergy

Geoffrey Buckles  
Operations Manager
