

## PROPERTY DESCRIPTION

This solid brick and concrete facility with wood columns and beam system offers a functional mix of office, production, and cold warehouse space designed to support a wide range of operations. It includes 3 offices (one with a fireplace), a vault, a work room, lab, kitchen, and 3 restrooms. The property benefits from convenient access to Highway 24/40, providing excellent connectivity for shipping, logistics, and regional travel.

The property is equipped with two overhead doors for efficient loading and distribution, electrical infrastructure including 110/220 power and 3-phase service in select areas to accommodate industrial and manufacturing needs.

The office features modern technology and updated systems, creating a professional workspace.

The north warehouse has a ramped mezzanine area for added storage or operational flexibility, with part of it finished in hardwood flooring ideal for specialized uses or light production. Additional highlights include a climate-controlled production area (4,300+/- SF) for temperature-sensitive operations and a dedicated concrete block tool and machining room.
